PRICE FIVE CENTS

CHAMBER WILL SPONSOR XMAS DECORATIONS CONTEST HERE

Gettysburg's Chamber of Commerce will sponsor a Christmas Outdoor Decorations contest for homes within the town and within a two-mile radius of the borough limits, it was announced today.

Ralph K. Will, chairman of the Civic Affairs Committee of the Chamber of Commerce, said his committee reached agreement to sponsor the program at a meeting Tuesday afternoon at the Lamp Post Tea Room.

A total of \$200 in prizes will be \$75; second \$50, third \$40, fourth \$25 and fifth \$10.

TO JUDGE DEC. 28

Final details for the contest have not been worked out but a committee including Walter Lane, Charles Ditzler and Milton Bender was appointed by Chairman Will to complete arrangements for the event.

The committee plans to advertise "clip-out" coupons in December which must be sent in by all who want to have their homes judged in the competition.

On December 28 the judges will then view the homes of all who are listed as participating.

Will said the signatures of those participating will not be sought until about the middle of December—"when most folks will have made up their minds what kind of decorations they want to put up." The decision to judge after Christmas was made because "many continue to add to their display as they get more into the spirit of Christmas."

The committee plans to "push the idea of putting Christ back into Christmas," Lane said, urging more outdoor nativity scenes and other scenes pertaining "to

TRICK-TREAT PROGRAM HERE TWO EVENINGS

The annual UNICEF "Trick or Treat" program will be held Monday and Tuesday evenings, Mrs. Robert A. Codori, chairman of the committee, announced today.

Fifth and Sixth Graders throughout the county and Sixth Graders in Gettysburg will solicit funds, and the Alpha Phi Omega fraternity will collect on the college campus and seminary. In addition church youth groups will assist in the county.

The collectors will be identified this year by a one-half pint carton and an orange UNICEF identification tag.

The United Nations International Children's Fund is organized through the parent United Nations and uses the funds collected to help needy children throughout the world. More than 100 governments are using the fund to protect their children from hazards beset from birth by disease, ignorance and hunger.

FUNDS ARE MATCHED

Funds are released to the countries on a matching basis. A government must match, with its own finances, the amount drawn from the UNICEF fund.

Congregational Meeting Nov. 5

The Session of the Great Coneyway Presbyterian Church, Hunterstown, has called a special meeting of the congregation for Sunday, November 5, immediately following the worship service in the Hunterstown Methodist Church. The question to be considered is: "Shall the Great Coneyway Presbyterian Church sell its parsonage?"

A special service of music will be held in the Great Coneyway Church on Sunday evening, October 29, at 7:30 o'clock. The service will include congregational singing with the church organ and vocal and organ selections. All members and friends of the church are invited to attend.

JAIL COUNTY MAN

COMMITTEES FOR CLUB SHOW APPOINTED

Committees for the 1962 buildings show were appointed and a donation to pay the cost of constructing a display unit for the Freedom Shrine was approved at a meeting of the Exchange Club Tuesday evening at the Lamp Post Tea Room.

The club approved payment of \$150 from Gettysburg High School Principal Clifford Snowberger, who designed and built the platform on which the Freedom Shrine stands. The bill included \$60 for materials and \$90 for Labor. They donated the Shrine to the school last year.

SHOW COMMITTEES

President Ralph K. Will appointed the following committees for the show: General chairman, John J. Slentz; co-chairman, Richard Schaeffer; prize committee, Dave Garfinkle; chairman, Carroll Smith, John Codori and E. Donald Scott; booths, Carl Prosser, chairman, Ernest Simpson, Mervin Zinn and Donald Peters; signs, Philip Neth, chairman, Jack Chronister, Jay Bringham and Harvey White; publicity, Albert D. Sterner, chairman, and C. Robert Ziegler; electrical equipment, Francis Grot, chairman, and William Jordan.

Jay Bringham reported that other clubs were not interested in establishing a billboard for all service club signs on roads leading into Gettysburg, and the club decided to meet Thursday afternoon at 1 o'clock to repair and erect the Exchange emblem.

Robert A. Codori spoke briefly about mutual funds.

The club will not meet next Tuesday due to the Halloween parade.

LOCAL ACCIDENT

Evelyn B. Filsinger, 18, Fairfield R. 1, while traveling east on York St. about 5 o'clock Tuesday afternoon struck the rear of a vehicle operated by Harold E. Patterson, 18, 102 E. Middle St., according to borough police. Damage totaled \$15 to the Patterson car and \$10 to Filsinger's.

BERLIN (AP) — The United States today asserted its right to free movement in Berlin by rolling an armed group of Military Police into Communist East Berlin for the second time this week.

The 12 military police, with fixed bayonets, escorted two American civilians in an army-licensed private car past East German police guarding the Communist wall through Berlin. The East Berliners had refused to let the Americans through when they would not show identification papers.

Ten U.S. Patton tanks and two armored personnel carriers equipped with heavy machineguns also took station at the Friedrichstrasse crossing point into East Berlin. They emphasized defiance of an East German order that all allied personnel in civilian clothes must show identification papers to cross into East Berlin.

8 AMBULANCE CORPS GIVEN INSTRUCTIONS

Numerous lives have been saved by mouth-to-mouth resuscitation and by the closed chest method of forcing the heart to beat, Captain Martin C. McMahon, battalion chief of the Baltimore Fire Department who was one of the men instrumental in developing both systems, told members of Adams County's ambulance corps and others at the Elks home Tuesday night.

The systems were worked out by teams of physicians from Baltimore hospitals, McMahon and others from the fire department and representatives of federal agencies to provide "in the field" methods by which lives could be saved without using equipment.

McMahon explained: "These methods are ones anyone can use and use immediately. When a person has stopped breathing there is no time to call for a rescue squad or a physician or take them to the hospital. Whatever is going to be done must be done right where the person is and as quickly as possible."

USED PLASTIC MODEL

In mouth-to-mouth resuscitation, the head is pushed up and back to open the air passages. McMahon used a plastic model to show that when the head is pushed forward and down the tongue is pushed back and "can be a wedge closing off the air passage." When the chin is pulled or pushed forward the tongue comes with it, thus opening the passage. "Often this is all that is needed," McMahon said.

When the head is pushed up and back, thus forcing the chin forward, the mouth of the patient should be opened. If it is tightly shut, the lower lip can be pushed down thus providing an opening. Then you simply open your mouth to cover the patient's mouth, thus making a seal and blow in. You will see the patient's chest rise. You then lift your head and let the fall of the chest drive out the air you have put in. You then

Garden Club Will Meet On Thursday

The Gettysburg Garden Club will hold a regular meeting Thursday evening at 8 o'clock at the YWCA. Members are asked to bring arrangements of fruit, flowers and vegetables, and novelty decorations for Halloween, Thanksgiving and special autumn parties. General discussion and exchange of materials and rearrangements will follow a short business meeting.

A plant exchange table will be conducted for the benefit of the County Home project. Members are asked to contribute perennial plants which are being divided and replanted at this time of year.

A club member pointed out that John D. Naugle, associate county farm agent, suggests care be taken in proper soil preparation and fertilizing to insure growth of long rooting systems during the fall and winter. Two free pamphlets, "Growing Chrysanthemums," No. 500, and "Peonies," No. 139, may be secured for the asking at the courthouse.

Test Milk For Radioactivity

HARRISBURG (AP) — Karl M. Mason of the state Health Department reports that Pennsylvania soon will begin to test milk for radioactivity.

"Right now, the idea is just in the planning stages," Mason explained Tuesday. He is director of the department's Bureau of Environmental Health Services.

Apparently, Mason revealed, radioactive fallout, especially iodine, shows higher concentration in milk than in water or air.

He added that the U. S. Public Health Service already is testing milk in the Philadelphia and Pittsburgh area of Pennsylvania and in other sections of the country. The state, so far, has only been testing water and air samples for fallout.

TEACHERS TO LEARN ABOUT MADISON PLAN

"The Madison Plan," a program of teaching mathematics developed at Syracuse University, will be outlined to Adams County's elementary school teachers at Keefeauver School here Thursday evening at 7:30 o'clock.

Dr. Clyde G. Corle of the faculty of Pennsylvania State University will be the speaker at the program, one of six being held

DR. CORLE

during October and November as part of the county's "In-Service Teacher Education." The series is being held under the general theme "A New Look at Mathematics for the Elementary School."

Dr. Corle, associate professor of education at Pennsylvania State University, has been a member of the college staff since 1952 and his special field is the teaching of elementary arithmetic.

A native of Ohio, where he was graduated from Cedarville College, he earned his master's degree at Miami University, Oxford, Ohio, and received his Doctor of Education degree from the University of Cincinnati.

Dr. Corle served the schools of Greenville, Ohio, as an elementary school teacher, principal and director of guidance. From 1946 to 1949 he was a lieutenant in the U. S. Navy. Before joining the Penn State faculty he was superintendent of schools at Ansonia, Ohio. Dr. Corle spent the year from June 1960 to June 1961 as a Fulbright lecturer at the University of the Philippines.

Migrant Worker Sentenced To Jail

Louie F. Spence, a migrant worker from Florida, was sentenced to 20 days in the Adams County jail on two charges by Justice of the Peace Anna E. Thompson at a hearing Tuesday evening.

Spence, in lieu of fines, received a 10-day sentence on drunk and disorderly and driving a car without the owner's consent charges.

He was arrested Monday afternoon by borough police on Railroad St. The automobile used without consent is owned by John J. Honadel, R. 5.

2 November Calls For Final Physicals

For the first time in at least a decade, the Adams County Selective Service Board has been directed to send two contingents of countians to Harrisburg for pre-induction physicals in a single month.

The Draft board office has gotten orders from state headquarters to call 29 men for final physicals on November 16 and 15 additional for the same purpose on the following day.

On November 16, the draft board will send eight men to Harrisburg for induction.

Present staff members for the board said it was the first time in their recollection that a supplemental call for physical examinations has been issued.

Three Letters Of Estate Are Issued

The register and recorder has issued testamentary letters in the following estates:

James A. Miller, in the estate of George T. Miller, McSherrystown, for the \$1,000 worth of personal property.

Mae Keefeauver, in the estate of John E. Plank, Straban Twp., for the \$250 worth of personal property, and \$6,000 of real estate.

Evans D. Kline, in the estate of Francis F. Kline, Union Twp., for the \$20,000 worth of personal property.

LOCAL YOUNG FARMERS WILL DINE NOV. 29

Horace Waybright and Lyn-dale Brandon were appointed as delegates from the Gettysburg Young Farmers' Association to the state convention to be held at State College November 29 at the regular meeting of the local association Tuesday evening at the high school here. President Waybright presided.

Plans were announced for the annual fall dinner meeting of the local association November 15 at the local Methodist Church. Francis Walker, Wilbur Waybright and Roy Weaver Jr. were appointed to a nominating committee.

Fred Tilberg, who placed second in the national FFA speaking contest at Kansas City, and David Redding, who received the American Farmers' degree from the FFA there, will be on the program for the dinner meeting next month.

On Tuesday evening County Farm Agent Frank Zettle and his associate, John Naugle, presented a program on forage analysis and winter feeding of dairy cattle.

Zettle said that county dairymen no longer have a serious "good breeding" problem and their chief concerns now should be with feeding and management and with growing young replacements for their dairy herd. The importance of raising the quality of forage feed by better and more timely hay making and by better care of hay was stressed. Grain and protein supplements for forage also were discussed.

Harry Burns Jr., near Barlow, was a guest at the meeting.

TORCH CLUB HEARS NIXON

The use and development of the tank in World War I and II was outlined Tuesday evening to the Torch Club at its meeting in Trinity United Church of Christ by Col. T. H. Nixon, Gettysburg R. D.

Outstanding as a specialist in tank development, Col. Nixon said that modern warfare has "returned to barbarism," in that it "destroys everything." Purpose of war, he said is "to destroy the enemy, to destroy the means by which the enemy can continue the war and to destroy the will of the soldiers and people of the enemy." With those purposes it is necessary to carry out acts which destroy both civilian and military.

The tank was developed during World War I to break through the enemy lines and in addition cause damage to the rear. In World War II tanks were greatly improved and light, medium and heavy tanks were developed for different purposes. Tanks have advantages and limitations, he said. They entail problems of supply for wearing parts, gasoline, etc. The development of enemy guns led to heavier armor for tanks to withstand the guns. He described use of land mines against tanks and the development of rollers in front of the tanks to detonate the mines before the tank arrived.

Daniel Skelly introduced the speaker, President Lloyd C. Keefeauver presided.

SPIKES REPORT TOWN TO LOSE SHOE FACTORY

J. Howard Gaines, chairman of the industrial committee of the Gettysburg Chamber of Commerce, at a luncheon meeting of his committee Tuesday at the Peace Light Inn spiked a rumor that the Gettysburg Shoe Company is going to leave the community.

"I talked with company officials," he said, "and they told me they have no plans whatsoever for leaving Gettysburg."

Mr. Gaines asked a subcommittee headed by Thomas Gibbons to complete their mailings of new industrial brochures on Gettysburg as soon as possible. Gibbons said a model letter to accompany the brochures is being prepared.

Gaines also asked all subcommittees to complete their assignments and make final reports on their progress by the end of the current fiscal year.

GIVES "PARK" REPORT

James Hays, reporting for the industrial park project, said an ad is being prepared for insertion in The Gettysburg Times asking information on possible new park sites with utilities and other services available. The committee has options on three sites but is seeking more, he said. The state will not give help on development of sites under 50 acres. The committee is seeking sites of 100 to 150 acres, he said.

The chairman also urged committee members to make prompt reservations for the annual Chamber of Commerce membership dinner November 2.

Richard Hartley reported for the committee planning the Business Industrial Education Day and said the preparations were to be advanced at a breakfast meeting today. He said 32 letters have brought 21 responses from businesses interested in cooperating in the project tentatively set for late November or early December.

The chairman announced the next committee meeting for November 21 at the Hotel Gettysburg.

KELLER RITES ON FRIDAY AT 2

Funeral services for John Hartman Keller, 63, of 167 N. Stratton St., who died Tuesday morning at the Warner Hospital, will be held Friday afternoon at 2 o'clock at the Bender Funeral Home, Carlisle St., with the Rev. Dr. Paul L. Reaser officiating.

Interment will be in the Gettysburg National Cemetery with the local Veterans of Foreign Wars and American Legion providing the military rites. Friends may call Thursday evening from 7 to 9 o'clock at the funeral home.

During World War II he served as a sergeant with Company D, 347th Engineer General Service Regiment in Europe under General George Patton and won the Bronze Star for meritorious service. He was well known locally as a baseball player, as a former borough policeman and former deputy sheriff.

He was a member of St. James Lutheran Church here, the local Moose, Eagles, VFW and American Legion and the Hanover Home Association.

SELL BUSINESS HERE

Mr. and Mrs. Walton H. Jones, Gettysburg R. 1, have sold their delicatessen at 31 Baltimore St. to Mr. and Mrs. Earl Q. Forry, Hamilton Twp. The new owners will take over Monday. The sale was made by William A. Bigham, local realtor.

Believe Nuclear Blast Fallout May Extend Over Entire Nation In 10 Days

By FRANK CAREY
Associated Press Science Writer
WASHINGTON (AP) — Public health authorities are geared to detect the first fallout in North America from the Soviet Union's massive nuclear explosion of Monday.

But they declared it is too early to forecast if it will create any significant health hazard either in the following few weeks or next spring.

A Weather Bureau scientist said it was possible the early fallout from Monday's test may even pass north of the continental United States in its first pass around the earth. It likely will extend over the entire nation in its second time around about 10 days later, he added.

COULD CAUSE CANCER

There is a possibility, health officials said, that within the next month levels of radioactive iodine from the bomb debris might equal or exceed levels produced by the

Expect Break In Deadlock Over 2 New UN Members

UNITED NATIONS, N. Y. (AP)—Prospects brightened today for a break in the Security Council deadlock barring Mauritania and Outer Mongolia from membership in the United Nations. Nationalist China appeared to have abandoned its intention to veto the Mongolians.

A Nationalist spokesman said his delegation did not expect to get voting instructions until just before the council meeting this afternoon to consider the two membership applications. But reports from Taipei said Chiang Kai-shek's government had reluctantly concluded it would have to change its hitherto rigid position and the Nationalist Parliament had given its tacit assent.

A double-barreled resolution covering both candidates was being considered to get around a dispute between the Soviet Union and the West over which application should get priority.

The Soviets have been insisting that Outer Mongolia be considered first. Then, if Mongolia was blocked by a Nationalist veto or failed to get the required seven approving votes, the Russians could retaliate by vetoing Mauritania.

SOROPTIMISTS SEE FILM ON REFUGEE WORK

The work of Father Pire with the 60,000 European refugees from World War II was told in the film "35 Rue de Marche" produced for the Armstrong Circle Theater, shown to the Soroptimist Club at its meeting in the Adams Electric building Tuesday night.

Father Pire, a priest and winner of the Nobel Peace prize, started to give hope to desperate displaced people by writing them letters of encouragement. He then found homes for some of the older residents of the camps but worried about the conditions under which the children and young people had been living for years. Finally, with the help of individual contributions from all over the world, he was able to construct villages near some of the border cities of Belgium, Italy and Austria and there to rehabilitate entire families of refugees.

A brief business meeting preceded the showing of the film with President Elizabeth Gregg presiding.

TO INITIATE CLASS

The newly organized degree team of the Gettysburg Moose Lodge will initiate its first class Thursday evening at 8 o'clock at the Moose home, York St. Secretary George Naugle said a class of 21 new members will comprise the group for which the newly formed team will exemplify the first degree of the Moose.

Refreshments will follow the initiation. Entertainment will include bowling and shuffleboard.

PLAN BIRTHDAY DINNER

Members of the Soroptimist Club were particularly interested in the program since the North Atlantic Region helped to pay the costs of at least three of these houses through the funds of the Soroptimist Foundation.

The program was arranged by the International Good Will with Brenda Walker acting as chairman.

A brief business meeting preceded the showing of the film with President Elizabeth Gregg presiding.

21 previously announced tests in the current Soviet series.

It isn't known yet whether this cumulative total of fallout would constitute any significant hazard, said Dr. James Terrill of the Health Service in an interview.

Radioactive iodine is considered a threat because, if enough of it got into a person's system, it could cause thyroid cancer.

Terrill said that most of the radioactive strontium—a potential cause of bone cancer—loosed by the bomb will be delayed in falling until next spring. The strontium from the big blast will fall with the strontium remaining in the stratosphere from other tests in the series.

It remains to be seen whether the strontium from all tests would constitute any widespread hazard, Terrill said.

SOME ADVERSE EFFECTS

"It should be borne in mind, however," he added, "that even

PLAN \$100,000 IMPROVEMENT WITH LIGHTS AT CROSS KEYS

Cross Keys intersection may soon have a five-lane Lincoln Highway section and a four-lane Hanover-Carlisle Pike section, plus traffic lights, according to a discussion this morning at the county commissioners' office.

Enlargement of the highways at the crossing, a \$100,000 job, will be performed by the State Highway Department, starting possibly next spring, the commissioners were told.

Installation of the traffic lights will be up to the county commissioners and the supervisors of Berwick, Hamilton and Oxford Twp.

COUNTY TO "GO ALONG"

At their meeting this morning in the courthouse the commissioners indicated they will "go along" with part of the estimated \$15,000 cost for the traffic lights. They set up a meeting between themselves, the supervisors from the three townships and State Highway District Traffic Engineer H. S. Pomeroy for next Wednesday morning at 10:30 o'clock to work out details on the traffic lights.

The commissioners' willingness to spend some of the county's liquid fund on the traffic lights stemmed, they said, "from the fact that Cross Keys has been a dangerous intersection for years." Pomeroy said it was the "second most dangerous intersection" in his district. A two-year report by state police showed they investigated 19 accidents at the intersection. Pomeroy pointed out that the property damage listed in the accidents, \$14,300, "just about equals the probable cost of installation of lights," and added: "That does not include the 12 persons injured in the accidents, lost working time, hospital and other bills

NEED CARRIER AT BIGLERVILLE

An examination for a rural carrier at Biglerville will be open for acceptance of applications until November 21, the Civil Service Commission announced today.

Applicants must take a written test. They must have resided within the delivery of the office for one year immediately preceding the closing date of the examination. In addition, they must have reached their 18th birthday on the closing date for acceptance of applications. There is no maximum age limit. However, persons who have passed the age of 70 may be considered only for temporary renewable appointments of one year.

Complete information about the examination requirements and instructions for filing applications may be obtained at the Biglerville post office. Application forms must be filed with the U. S. Civil Service Commission, Washington 25, D. C. and must be received or postmarked not later than the closing date.

GRADUATE REGENT TO BE HONORED

Kathryn Davies, graduate regent of the Women of the Moose, will be capped with her "green beanie" at a convocation to be held Sunday at Lock Haven, it was announced Tuesday evening at the regular meeting of the Women of the Moose in the lodge home on York St.

Senior Regent Jean Keller presided with 30 members in attendance.

Hilda Newman, member of the College of Regents of the local chapter, will serve as escort to the senior regent at the convocation Sunday. The honor for the graduate regent signifies that she fulfilled all the requirements specified by Mooseheart during her year as senior regent.

Further plans were made Tuesday for members of the local chapter to serve as judges and chaperones for the Youth Honor Day party to be sponsored by the local Moose lodge next Monday.

After Tuesday's meeting, there was a toy demonstration given by Betty Weaver in the ballroom at the Moose home. Orders for toys may be left at the Moose home office.

Refreshments were served after the meeting.

George Williams of Gettysburg is enrolled at Anderson, Ind., College. He is a 1959 graduate of Bermudian Springs Joint High School and a Sophomore majoring in physical education.

The Mt. Joy Homemakers will meet Friday evening at 7:30 o'clock at the home of Mrs. John Schwartz, Littlestown R. 1. The topic for discussion will be "Selecting Accessories for the Home."

The Friday Afternoon Literary Club will meet with Mrs. Robert Fortenbaugh, College Ave. The program will be in charge of Mrs. Frederick K. Wentz. Her subject will be "The Fading American Newspaper," by Carl Lindstrom. The program will begin at 2:30 o'clock.

The Mary Gettys Rebekah Lodge will hold its Halloween party at the Odd Fellows Hall Thursday evening at 7 o'clock. All members are to wear costumes. Those who do not "will have to pay a penalty." The judging will begin at 7:15 o'clock.

Rev. Dr. and Mrs. M. R. Hamsher, Windbrail Lane, entertained at dinner Saturday evening in honor of Mrs. Eacey Fox, Baltimore, friend of the family. Guests were: Mr. and Mrs. Fred Eckhardt, Reisterstown, Md.; the Rev. and Mrs. Paul O. Hamsher and daughter, Heather, Coatesville; Prof. Carl M. Hamsher, Drexel Hill, and his son, David, Gettysburg College; the Misses Elsie L. and Ruth A. Hamsher, Chambersburg.

Sunday Rev. Mr. Hamsher assisted in the installation of his son, the Rev. Paul O. Hamsher, as pastor of the Lutheran Church of Our Saviour, Coatesville.

The Lydia Class of St. James Lutheran Church Sunday School held its monthly meeting in the form of a Halloween party Tuesday at the home of Mrs. Lucille Hill, Highland Ave. Mrs. Hill and Mrs. Betty Malcolm were cohostesses. Prizes were awarded to the following: Prettiest, JoAnne Mellott; ugliest, Helen Ford; funniest, Dorothy Stiller. An evening of games was enjoyed by all. After a brief business meeting refreshments were served.

The president appointed the following committees: Publicity, Freddie Reedy, chairman, Carol Howe, Shirley Derr and Christine Bush; social, Betty Malcolm, chairman, Hilda Settle, Eleanor Harp and Lucille Knox; membership, Alice Johnson, chairman, Dorothy Steinhour and Helen Zentz; ways and means and Christian service, Lorraine Waybright, chairman, Peggy Breighner and Patsy DeHaas; sunshine, Helen Ford, chairman, Adelle Durboraw, Jean Rohrbach, and Betty Hughes; devotion and program, Mary Lou Gallagher, chairman, Rose Boyer, Lois Smith, Marie Kuhn and Hazel Lawver.

Tuesday evening 53 members and guests of the United Brethren Ladies' Aid Society, attended a demonstration at the Manufacturers Light and Heat Company. The program, "Foods for Fall," was conducted by home economist Miss Betty Newton. "Words" was the theme of the story told by Miss Peggy Quinn, gas company information department representative.

Cookbooks were won by Mrs. Spurgeon Kaiser, Pearl Keckler, Mrs. Earl Shears and Mrs. Allen Slonaker. The foods prepared during the program were awarded as follows: Rice hobo skillet, Mrs. John Whitman; party hamburger loaf, Mrs. C. Capella; broiled chicken liver dinner, Patricia Schriver; sea foam salad, Mrs. William Moore, and the surprise pumpkin pie, Mrs. Robert Keller.

A social hour with refreshments followed the program.

Miss Margaret McIlhenny, E. High St., has returned from a visit with Miss Margaret Barnes, Wyalusing.

(Continued From Page 1)

present three lanes of Route 30. When it is expanded to five lanes it will be just that much more difficult to cross without lights.

WOULD BE "FIRST"

If the commissioners share in the cost of a traffic signal at the intersection, it will mark the first time a county in this district has made such a contribution. Pomeroy said, however, that in the western part of the state and in the Philadelphia area, "counties frequently help put lights in, or put them in entirely at their own expense, because the improvement is for the general public's benefit."

Fred G. Klumk, county Democratic chairman, who accompanied Pomeroy and Highways Superintendent Clyde Garber to the session, said he "has been working for eight years to get the state to do something about Cross Keys and we've finally got them moving. I hope the townships will join in. I believe the people of the people of the townships want lights there."

The "approximately \$15,000" figure used by Pomeroy for the traffic signals is based on a new system which will "weigh" traffic on Route 94 and Route 30 and change the lights accordingly. Pomeroy held such a method would work better than a fixed time traffic light because "there are times when traffic is heaviest on Route 30 and times when it is heaviest on Route 94."

OTHER MATTERS

Changes proposed by the state include construction of cloverleaf lanes permitting right turns from any direction without the control of the traffic lights. The proposed traffic light system would include provision for left turns.

Other business before the commissioners this morning included a report from Engineer Wilbur Plank that he expects to have available in two weeks final floor plans for changes in the court house for approval by the commissioners.

The commissioners also spent some time with a Baltimore engineer concerning the possibility of using a chemical and light sandblasting to clear the brick walls of the court house. The brick was reported too soft for heavy sandblasting.

140 GHS Freshmen In Harrisburg Today

One hundred forty Gettysburg High School freshmen went to Harrisburg by bus this morning for a day of sight-seeing at the state capitol. They were accompanied by Don Bickel, social science teacher; Donald Tiziani, a student counselor, and a student teacher. The trip was made in three buses.

They were met at the capitol by Assemblyman Francis Worley who addressed the group in the forum of the state Education building. He spoke on the United Nations, describing it as a process in the development of international government. Mr. Worley also described legislative procedures in the state capitol.

Migrant Worker In U.S. Illegally

Keith Allen, 27, of Aspers, who has been working for the last several months at a nearby Pitzer orchard, was taken into custody by U. S. Immigration Service officers and placed in the county jail. He was to be taken to Philadelphia today to answer charges that he entered this country last November as a stowaway.

The Immigration Service officers said Allen was smuggled into this country at Miami aboard the Bahama Star as a stowaway with the help of "Uncle Dixon" to whom Allen, a Negro, had given an auto worth 90 English pounds in Nassau.

"Uncle Dixon," authorities say, had smuggled three other Bahamians into this country. After reaching Miami, Allen went by bus to Cocoa, Fla., where he got a job in the Victory orchards where he had formerly been employed as a contract worker. After two months he moved on by bus to Winter Haven where he worked until June of this year and then came to Aspers in the car of an "American friend." He had worked in the upper county orchards until his arrest Tuesday.

Two Autos Collide In Morning Fog

State police were called this morning at 6:30 o'clock when two cars collided in the fog a mile north of here on the Harrisburg Rd.

The officers said Rodney Shaffer, 17, Biglerville R. 1, was backing out of a private driveway onto the road when the rear of his vehicle was struck by a northbound car operated by Lawrence E. McGlaughlin, 32, of 231 Hanover St. No estimates of damage were immediately available. The McGlaughlin car was towed to Swope's Service Station, Carlisle St.

Tuesday evening at 8:45 o'clock two cars were in a collision a tenth of a mile west of Bonneauville on Route 01003. Police said Mercedes T. Smith, 22, Gettysburg R. 5, driving a car owned by Ernest A. Smith, Gettysburg R. 4, struck a parked car owned by Harry and Naomi Reisinger, Dallastown R. 1, causing \$25 damage to the Smith vehicle and \$150 to the parked auto.

CUBS TO HOLD ANNUAL PARTY NEXT MONDAY

The annual Halloween party for the Cub Scouts of Pack 84 was planned at a meeting of the den mothers with Cubmaster Alvah Stonesifer and pack committee-man Reid Pittenturf on Monday evening at the home of Cubmaster Stonesifer, S. Queen St. Ext. The party will be held Monday from 7 to 9 p.m. in the Littlestown Fish and Game Clubhouse, near town. Costume prizes will be given for the ugliest, prettiest, funniest and most original. An awards ceremony will be held in connection with the party. There will also be graduation of Cubs to Boy Scouts and reception of new boys into the pack. Refreshments will be served during the evening. Families of Cubs are invited to attend the affair. Boys wishing transportation next Monday should notify their den mother. Each den is asked to make a jack-o-lantern for the party.

The group discussed the study theme for the pack for November. It was decided to use "Magic" as the theme. A roller skating party was tentatively planned for next month on a date to be announced. The next planning session of the pack officials and den mothers will be held Monday, November 27, at 8 p.m. at the home of Mr. and Mrs. Reid Pittenturf, Patrick Ave.

COMMUNISM IN CURRICULUM IS DISCUSSED

Adam's County's high schools may eventually teach the differences between communism and democracy but specially qualified teachers are likely to be the instructors if such a program is carried out.

The county board of school directors discussed the problem at its meeting Monday evening at the county superintendent's office on Carlisle St. and gave every indication that it is approaching the problem with some reluctance.

County Board Member Dean Asquith of Biglerville brought the subject before the board noting that the state recommends that high schools give a course on communism under the theory as Asquith put it: "It's hard to fight a tiger unless you know what it looks like."

"A LITTLE AFRAID"

There seemed general agreement that "you just can't tell every social sciences teacher to teach communism." The board members held that the teacher must be well skilled; "the problem is how many teachers of history have a thorough grounding in economics," according to Count-

Kaufman, Gerald Brumgard, Earl Brumgard, J. Edgar Yealy, Robert W. Gouker, Norman R. Lemmon and Richard Hornberger; Team Six Larry E. Sheets, John Shomper, Barry Fissel, Carl Ritter, Douglas Gitt, and Herbert Plunkett. All teams will bowl on Thursday beginning at 6:45 p.m.

Officers were elected at a meeting of Girl Scout Troop 780 on Monday after school at the engine house. Elected were: Scribe, Joyce Myers; treasurer, Mary Jane Spalding; leader, Patricia One, Mickey Yealy; assistant, Tina Reigle; leader, Patricia Two, Wanda Lightner; assistant, Sandra Rhodes. The leaders, Mrs. James H. Spalding, Mrs. George Rhodes and Mrs. Fred Hartlaub, were in charge.

Plans were made to have a Halloween party next Monday from 6:30 to 9 p.m. at the home of the leader, Mrs. Spalding, near town. Each member of the troop may take a girl friend to the party. All will meet at the engine house at 6:30 p.m. and transportation will be provided to and from the engine house. The girls are asked to pin the troop number on their costumes as identification.

Believe

the present or expected levels of both strontium and iodine are and will be producing some adverse health effects in small portions of large population groups throughout the world.

"However, these levels of health effects will probably be below the detectable range," Terrill said standards had been worked out—differing for various kinds of radioactive materials—to guide officials in considering protective countermeasures.

For example, the maximum standard for radioactive iodine is a daily intake of 100 micro-microcuries per day over a year's time. The standard for strontium is 200. A micro-microcurie is a measurement of radioactivity.

Terrill said the Health Service just can't say how much fallout will come down quickly from Monday's heavy weight test, or how much will be delayed until next spring.

One reason, he said, is that the Health Service does not know how dirty the bomb was in terms of radioactive fallout.

the true spirit of Christmas."

BOROUGH MANAGER PLAN

As next step in its study of the value of the borough manager plan of town government, the committee asked Attorney Donald G. Oyer to write town council to determine if the membership of council is interested in the borough manager idea. If the council members evidence interest, the Civic Affairs Committee will attempt to set up a public meeting at which borough managers from other nearby towns would outline their work.

The Civic Affairs Committee voted to inquire of borough council the progress on plans of the county commissioners to construct public toilets at the courthouse if the borough will pay for their upkeep and supervision.

The committee also decided to

ty Superintendent C. P. Keefe; "the teacher must be very level headed. You dare not get emotional about it," Asquith said, and must teach without waste motion; "they schedule only 36 hours for it and that's hardly enough time to teach enough economics for comparison of the two systems," according to Assistant County Superintendent M. Francis Coulson.

While agreeing that such a course "is highly necessary," the county board had no recommendations immediately other than that the Shippensburg Film Library should be well stocked with films for the instruction and that the Schoolmen's Association should take up the theme to instruct teachers at its annual three-day session next summer.

One of the county board members said: "I am myself and I think most boards and teachers are a little afraid of it."

blow another breath into the patient and continue until normal breathing is restored."

LIKE NORMAL BREATHING

There is no need to worry about rhythm. Because the patient is rapidly losing oxygen it is best to provide a number of quick breaths at the start, then you can take it more slowly later." A film of the experiments at a Baltimore Hospital showed that when no artificial respiration was given a physician, whose breathing had been halted by giving him curare, the oxygen in his system dropped rapidly. One of the testing team, in 13 rapid breaths, using the mouth-to-mouth system restored the oxygen level to normal. One of the group in the test was an 85-pound, 12-year-old Boy Scout.

By using mouth-to-mouth methods he was able to restore the breathing of a 225-pound man. McMahon also notes that, when you are blowing air in, you provide as much oxygen as the person would receive in normal breathing.

He added, "There are some who might be squeamish about it, but when such resuscitation is needed there is no time to be squeamish. Nor should you worry about infection—you won't get any."

RESTORE HEART ACTION

If the patient has no pulse, blowing air into the lungs won't

help because the heart has stopped. By putting the heel of the hand on the breastbone in the middle of the chest and pushing down the heart is squeezed between the breastbone and the spine and blood is pushed out. When the hand is lifted from the breastbone it returns to its normal position and the heart expands, pulling blood into it. Thus by alternately pushing down and letting up the heart is forced to function until a hospital is reached and mechanical devices can take over if necessary. McMahon said that in 25 cases in which heart action had stopped Baltimore firemen were able to save 18 of the persons by use of this method.

Following the meeting at the Elks, a session of the ambulance corps members was held at the engine house.

Eight of the ambulance corps in the county were represented at the meeting. It was decided to hold two or three training sessions each year such as the one Tuesday night for all of the members of all of the ambulance corps, bringing in outside experts to give the instruction. Chief McMahon outlined the possibility of a one-day school in the county next summer for the approximately 100 men in the various ambulance corps.

NEED COUNTY PLAN

The ambulance corps officials decided to hold another meeting within three weeks with hospital and medical authorities to discuss the possibility of setting up a plan for coordination of the use of the county's ten ambulances and the various hospitals in event of an accident in which large numbers of people are injured. Chief McMahon outlined the "Trimble Plan" used in Baltimore by which physicians designated by the medical society are constantly "on

PAPERS NOT SHOWN

The three U.S. military police jeeps escorted the private car through the zig-zag barrier erected at the checkpoint, drove past the East German police (Vopos) and went on into East Berlin, without stopping to show papers. The convoy went about two blocks, wheeled around and returned. The East Germans did not interfere.

It was the second time this week that American troops had entered East Berlin to escort U.S. civilians defying the Communist requirement that they show their identity papers to the East German police when entering the Soviet sector. Allied personnel have been instructed to ignore the order because the Allies do not recognize the East German regime and also claim the right of free movement through all of Berlin for their garrison personnel, both military and civilian.

On Sunday night the East German police halted E. Allan Lightner Jr., deputy chief of the U.S. mission in Berlin, and his wife when they refused to show their papers while on their way to an East Berlin theater. A detachment of U. S. MPs escorted them through the border point.

School District Receives \$9,500

As 3rd PWA Grant: The Gettysburg school district has received its third grant of federal funds that are being used to help finance the erection of the two new wings to the Gettysburg High School building, now nearly complete.

The last payment from the WPA was received here Saturday and was in the amount of \$9,500 and brings the total sum received from the federal government to \$33,250. The local district officials are now ready to make formal application for the fourth and final grant, which also will be in the amount of \$9,500.

Apply For Licenses: Dr. Carl Harold Johnson, Philadelphia, and Miss Nancy McCurdy Keith, Carlisle street, daughter of Mr. and Mrs. John D. Keith, filed an application at the office of the clerk of the courts here for a license to wed. The couple will be married Friday evening at 8 o'clock in the Presbyterian Church.

Priest Comments Local Firemen: Fire Chief James A. Aumen has received a letter, under date of October 20 from Father Leo J. Krichen, rector of St. Joseph's Catholic Church at Bonneauville, in which the priest says in behalf of his parish, "I am extremely grateful for your splendid cooperation, eagerness, willingness and good sportsmanship in helping us out in our distress."

He referred to the fire that damaged the church the morning of October 16 and threatened the entire structure. The letter will be framed and hung in the fire engine house here.

Sportsmen May Hunt Woodcocks After 4 P.M.: Woodcock hunters are not compelled to stop hunting at 4 o'clock in the afternoon as it indicated in regulations for migratory bird hunting that are printed on the back of the 1936 hunting licenses, according to an announcement made today by the state board of game commissioners.

Woodcock may be hunted from 7 a.m. to sunset each day during the open season which closes November 14, excepting November 6, the first day of the general open season for small game. On that day hunting before 9 o'clock in the morning is unlawful for all game except waterfowl and coots.

Urge Widening Of Route 30: Cities and towns along the Lincoln highway, also known as U.S. Route 30, will be represented at a banquet meeting at Fort Bedford Inn, Bedford, at 7 o'clock this evening, of the recently formed Pennsylvania Lincoln Highway Association. Warren Van Dyke, state secretary of highways, will attend the meeting.

A concerted effort is being made to bring about widening and resurfacing of the highway between Philadelphia and Pittsburgh. Between York and Philadelphia the work is under way or completed. Efforts are now being concentrated to have the link between Chambersburg and Fort Loudon regraded and resurfaced into a wider roadbed.

Leg Is Broken When Horse Falls On Him: Edward Staley, Straban Township, Gettysburg, R. D., was brought to the Annie M. Warner hospital here this morning for an X-ray examination of an injury to his left leg. A fracture was revealed. After being treated Staley was discharged.

He was injured as he attempted to loosen a horse that had become caught in a stall at his property. The animal fell upon him.

Today's Talk

SOBS, SNIFFLES AND SMILES

In one of O. Henry's stories "The Gift of the Wise Men" I came across this line: "Life is made up of sobs, sniffles and smiles, sniffles predominating." The fact is there are many more cross currents that enter our days than we ever stop to realize. That is why we are downcast more than we should be. If we took more of our troubles for granted and as a part of the program of life there would be fewer complications.

Hurts in themselves are not so serious. The very fact that the gardener realizes enemies are all the time lying in wait for his flowers or crops makes him more alert. Consequently he builds better ground and keeps an extra eye peeled in watchfulness.

We can take our sniffles as they come and just slip around the corner and let them have their flood. Or we can find a dark closet and let them run their route there, or go out into the open spaces of God's ground and open up the sniffles.

Have you ever noticed how a baby's face brightens up after its little sob or sniffle? Its very tears glisten like pearls in the sunlight!

I never look at the furrows planted in the face of a great man without thinking of the tears that crept their way through them all.

All sun filled days are brighter after the rain.

And so we are better for all our sobs, all our sniffles and our tears. The heart demands that it have its reactions.

The only thing we should advertise are our smiles! The sobs, sniffles and tears are plenty enough with all.

Most of life is beautiful and attainable—but there is nothing easy about it.

OCTOBER

Days are gettin' shorter an' the air a keener snap,
Apples now are droppin' into Mother Nature's lap;
The mist at dusk is risin' over valley, marsh an' fen
An' it's just as plain as sunshine winter's comin' on again.

The turkeys now are struttin' round the old farmhouse once more,
They are done with all their nestin' an' their hatchin' days are o'er;
Now the farmer's cuttin' fodder for the silo towerin' high,
An' he's frettin' an' complainin' coz the corn's a bit too dry.

But the air is mighty peaceful an' the scene is good to see,
An' there's somethin' in October that stirs deep inside o' me;
An' I can't help in believin' o' a God above us, when
Everything is ripe for harvest an' the frost is back again.

DISMAL FALL WEATHER HITS HALF OF U.S.

By THE ASSOCIATED PRESS
Dismal fall weather—foggy, rainy and cool—covered broad sections across the northern half of the nation Tuesday.

Fog, drizzle and light rain extended from the southern Great Lakes region south and southwestward into central Missouri and Indiana. The murky weather was associated with a slow-moving cold front that extended across northwest Ohio southwestward into Texas.

Light rain fell in eastern sections where there also was considerable cloudiness. Rain hit areas along the east coast of Florida and from Cape Hatteras, N.C., northward through New England. Cloudy skies also were reported in the northwest quarter of the country. Snow fell in parts of the central and northern Rockies while light rain sprinkled southern Idaho and along coastal Washington and Oregon.

It was chilly in most of the northern Rockies, the northern Plains and eastward into the upper Great Lakes and southward into northern Illinois. Temperatures were generally in the 30s. Lower marks, in the 20-30 degree range, were reported in northern New England.

REDS LAUNCH TEST TO BLOCK POLARIS SUBS

By ELTON C. FAY

WASHINGTON (AP)—A Soviet underwater nuclear test indicates the Soviet Union is making a major effort to counter the mounting force of U.S. Polaris submarines.

The report by the U.S. Atomic Energy Commission that a relatively low-powered nuclear explosion was set off under water south of the arctic island of Novaya Zemlya was overshadowed by the rest of the AEC announcement.

That was that the U.S.S.R. also had detonated in the atmosphere over the Novaya area a nuclear device of very high yield, possibly as much as 30 megatons, more probably on the order of 30 megatons.

MEANING IN DOUBT

About the same time, the Soviet defense minister issued a statement that "the problem of destroying rockets in flight has been solved successfully." The ambiguous phrasing of Marshal Rodion Y. Malinovsky left in doubt his exact meaning.

But there could be little doubt about the significance of the two other Soviet experiments.

The big bomb is intended as an offensive weapon to intimidate the West with the prospect of mass destruction.

But underwater nuclear weapons and antimissile missiles—if indeed the latter have been developed by the Soviets—are designed to repel retaliatory strikes which the United States promises to unleash if the Soviet Union makes war.

REDS FEAR SUBS

The danger from submarine-launched missiles looms large for the U.S.S.R.

At least four atomic-powered Polaris submarines are on station within range of Russian targets. Deputy Secretary of Defense Roswell Gilpatric said last Saturday that six such submarines were at sea, armed with 96 missiles. One or two of them may be enroute or getting ready to head for stations off the northwest European coast. Eventually, 10 Polaris boats will be assigned to the missile watch.

The underwater test Monday was a trial of an antisubmarine warfare weapon—such as the U.S.S.R. would include in a strike against the Polaris fleet in event of war.

NEW DEPTH CHARGER

In the antisubmarine nuclear weapon field, the Soviet Union appears to be substantially behind the U.S. program. Atomic depth charges now are part of the U.S. Navy arsenal.

The first underwater experiment was made by American atomic weaponers 15 years ago. Navy antisubmarine weapons include depth charges for dropping from aircraft as well as ship-launched charges.

The Soviet claim of having solved the problem of destroying rockets in flight was more difficult of analysis. The first test was the kind of rockets Malinovsky was talking about. If there were comparatively short-range tactical rockets, flying at slow speed compared with intercontinental ballistic missiles, the announcement might not be startling. The U.S. Army has been testing antimissile rockets against other rockets for some time.

TEST NEXT SUMMER

But if Malinovsky was claiming that the Soviet Union had found a way of destroying or neutralizing an ICBM warhead, this was another matter.

The U.S. Army has been working on that project since 1955. It now has reached the point of waiting for a test, probably about next summer, of the Nike Zeus antimissile missile against Atlas ICBMs and permission to produce some components of the weapon before full tests are completed.

Airman James Harris, 21, of Lakeland, Fla., the bus driver, was killed when his vehicle plowed into the truck, one of several hauling gravel for construction near this northern Ontario town.

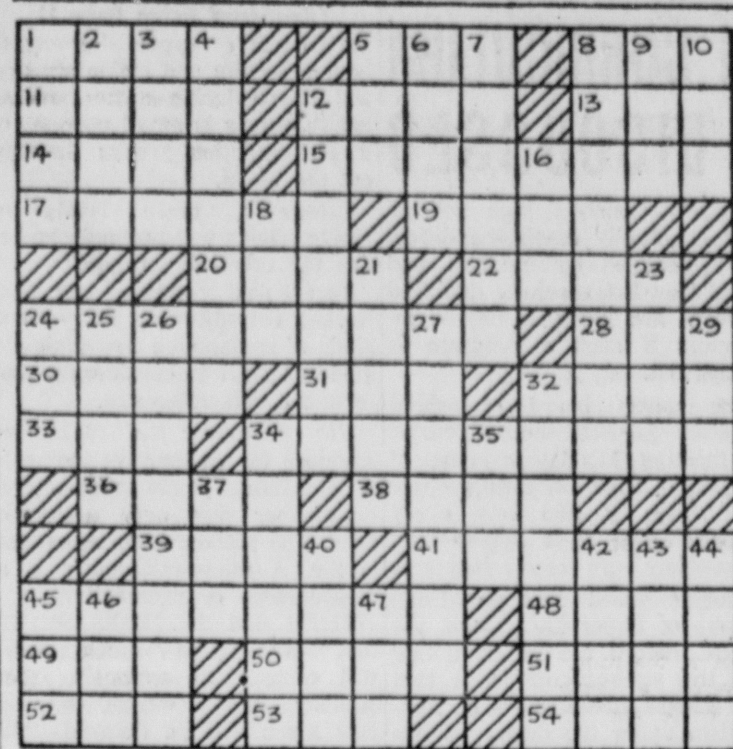

The son and daughter of the commanding officer of the U.S. radar base at nearby Lowther, Maj. Arthur Fox of Chicago, were killed. Mervyn Fox, 11, and his sister Karen, 12, were sitting in the front passenger seat. Their brother Gregory was among the injured.

John Morgan, 9, son of Mr. and Mrs. Eugene Morgan, who come from Wisconsin, died in a hospital here during the night.

Five of the injured children were flown to the hospital at Wright-Patterson Air Force Base near Akron, Ohio. They are Lagry Brown, 10; Debbie Stuland, 8; Jean and Joe Swain, both 7, and Michael Newcomb, 11.

HARRISBURG (AP)—Frank Glatfelter, who never missed a day's work in 41 years with the State Banking Department's Examination Staff, will retire Nov. 2, it was announced Monday. Glatfelter entered the department on July 1, 1920, as a junior bank examiner at an annual salary of \$2,400. Now he receives \$9,450 a year.

CASTRO SAYS PLOT TO KILL HIM IS FOILED

By JOSE MARIA ORLANDO

HAVANA (AP)—Fidel Castro reported Tuesday that his police had thwarted a new plot to assassinate him.

In a speech to a meeting of the Young Rebels' Association, the Cuban prime minister said a counter-revolutionary group had mounted bazookas in an apartment block and a half from the presidential palace but that the police discovered them before an attempt was made on his life.

It was the second plot against Castro's life reported this month. Authorities had announced they had uncovered a plan to kill the prime minister in front of the Havana Sports Stadium.

ARRESTS UNKNOWN

Castro said he was mentioning the latest plot as an example of counter-revolutionary terrorist methods. He did not disclose if any arrests had been made or when the plot was discovered.

"The murder of the revolution's leaders is a favorite tactic of imperialism," Castro said. "They think that by killing people they will kill the revolution."

Castro said he did not understand why the bazooka crew had not fired.

"Any sharpshooter could not miss firing from that apartment," he said. "But they did not shoot. I do not know why. I imagine they got nervous."

PHILADELPHIA (AP)—Two teen-agers have been held for the grand jury action and eight others placed on probation in what police term the outgrowth of interracial sex and drinking parties.

The teenagers were among 22 young boys and girls brought before Judge Sidney Hoffman Monday.

Hoffman ordered Carl G. Forrest, 19, and Harry Turner, 17, both of Philadelphia, held under \$10,000 bail each on charges of rape.

He placed three boys and five girls on probation, adjudging them delinquents.

The court action stemmed from charges by Barbara Di Salvo, 14, that she was raped Oct. 7, by Forrest and three other youths.

A previous hearing was postponed when the district attorney's office said the Di Salvo girl and her twin sister had been drinking the night of the alleged rape.

The district attorney's office said further investigation showed

NEW YORK (AP)—"After Billy Bob clumb the nar lath of the far tar, he was too tard to fix his flat tar."

Do you find it hard to understand that sentence? If you do, you probably haven't been to the Ozark Mountains recently, and it's time you went there and refreshed your knowledge of the queen's English—the English of the first Elizabeth with crown.

But the meaning is clear even to most Midwest flatland hillbillies:

"After William Robert climbed the narrow ladder of the fire tower, he was too tired to repair his flat tire."

"TALK PURE OZARK"

For the millions of Americans who would like to travel through the Southern Highlands and understand what is said to them, Dale Freeman of the Springfield (Mo.) News and Leader, has compiled a guide he calls "How to talk pure Ozark in one easy lesson."

As Dale is more interested in spreading Ozark learning than making a fast buck, here is a quick digest of regional mountain folk talk for those too cheap to buy his dollar book:

"Absence—A french drank, alcoholic."

"Adam—That adam bomb is going to blow us all to hail."

"Backer—What the oldtimers take a chaw ol'."

"Chew—Chew to to the foot washin' at the brantch Sattidy?"

"Dork—What it gits when the sun goes down."

World Shocked By Soviet Nuclear Bomb Explosion; Fail To Tell Own People

LONDON (AP)—Protests and demonstrations spread throughout the non-Communist world Tuesday against Soviet detonation of a giant hydrogen bomb.

Government leaders, scientists and newspapers, especially in Western Europe and Japan, expressed shock and horror at the 30-to-50 megaton blast set off in the arctic Monday. India's Prime Minister Nehru said he was "deeply pained and shocked."

The Russian people themselves were unaware of the blast, not reported either by the Soviet government or press.

In Italy, tens of thousands of high school and university students marched out of classes and paraded through streets in a dozen cities in protest against the Soviet blast. In Manila, more than 7,500 Filipino college students were reported to have signed a petition urging the Soviet Union to halt further tests.

British pacifist and philosopher Earl Bertrand Russell, 89, led a

ban-the-bomb delegation to the Soviet Embassy in London to deliver a protest letter and said afterward, "We had a nice interview, but in the end it was too much for the (Soviet) charge d'affaires."

Russell said the Russians told him there would be no fallout from the blast. But British Defense Minister Harold Watkinson said the British government is taking steps to make substitutes for fresh milk which might be contaminated from the Soviet blast.

He said preliminary evidence from the huge Soviet blast and its accompanying smaller one "suggests a yield of the order of 30 megatons."

FEEL SHOCK WAVES
In Australia, however, officials of the Commonwealth Scientific and Industrial Research Organization said its measurements indicated the Russian explosion was in the 50 megaton region. They said shock waves from the explosion—8,800 miles away—were still being registered today.

West Europe's newspapers were almost unanimous in their condemnation of the explosion as an act of terrorism without any scientific justification.

Japanese were alarmed by a warning from experts there that highly radioactive rain and dust from the blast would reach their shores around Friday.

The Tokyo government called a conference of scientists to decide whether the expected levels of radiation would be harmful to humans. The experts sought ways of coping with water and vegetable contamination.

The Norwegian parliament was debating a proposed resolution protesting Soviet atmospheric tests when word of the mammoth blast was received. A Socialist deputy termed the Soviet explosion an "abominable" act and recommended the resolution be amended to make it stronger.

The original resolution was adopted when other legislators contended that any delay might be considered weakness.

Newspapers in Scandinavia grimly noted that the atmosphere had received the largest single dose of radioactivity to date.

Nehru declared that "such tests not only contaminate the atmosphere but pollute the hearts and minds of people everywhere."

"How can peace be established if the big powers continue their armaments race?" he asked.

Airlines Report
12 Per Cent Gain

WASHINGTON (AP)—A 12 per cent gain in revenue-passenger miles last month over September 1960 was reported Tuesday by Allegheny Airlines.

The line said it flew 74,080 passengers 15,340,000 miles during September 1961 compared to 68,204 passengers over 13,663,000 miles for the same month a year ago.

Nelson F. Fry, president of the line, said it also set an all-time cargo record last month, carrying almost two million pounds of U.S. mail, air freight and express and excess baggage. The cargo was about 10 per cent over August of this year and 30 per cent over September 1960, Fry said.

PICK SPARTANS AND OLE MISS TO WIN AGAIN

By HAROLD CLAASSEN
Associated Press Sports Writer

NEW YORK (AP)—There's nothing like money in the bank—unless it is in your pocket. And a \$1 bet on each of the 57 games a week ago would have netted you \$31 on the basis of 44 correct picks and 13 losses.

With no assurance that this week's choices will be as profitable, Michigan State over Indiana: It is the Spartans homecoming game and that should be enough to keep top-ranked Michigan State alert even though the Hoosiers will be at full strength for the first time in a month.

Mississippi over Vanderbilt: Old Miss has permitted only 13 points in five games while piling up 157. Ohio State over Wisconsin: One of these Saturday's Ron Miller, the Badger tasser, is going to get hot and embarrass everyone but doubt it will happen at the expense of the Buckeyes. You can see for yourself on TV.

TEXAS ROLLS ALONG

Texas over Rice: Four reasons for this pick—Jerry Cook, Jimmy Saxton, Ray Poage and Tommy Ford.

Alabama over Houston: But the Crimson Tide will have more trouble than in last week's 34-3 fust with Tennessee.

Iowa over Purdue: The Hawkeyes' new passing combine of Matt Szykowsky to Cloyd Webb will prevail in a squeaker.

Louisiana State over Florida: The Bengals keep building for that climactic struggle next week with Mississippi.

Notre Dame over Northwestern: The Irish feel they should have beaten Michigan State last week and will take it out on Northwestern.

Elsewhere in other major games:

Georgia Tech over Tulane, Colorado over Oklahoma, Penn State over California, Missouri over Nebraska, Pittsburgh over Navy, Minnesota over Michigan, Maryland over South Carolina, Southern California over Illinois, Utah State over Idaho.

SAIMES NAMED BACK-OF-WEEK

By MURRAY ROSE
Associated Press Sports Writer

George Saimes, of Michigan State, the shining star of the game of the week, was named today the Back of the Week in The Associated Press poll.

A defensive stalwart, the 20-year-old fullback broke loose in the second half to rip apart Notre Dame's defenses and lead the top-ranking Spartans to a 17-7 victory over the sixth-ranked Irish.

The quick-striking, 186-pound junior, the campus champ in dancing "the Twist," showed his shaky hips to the Irish defenders in reeling off scoring runs of 24 and 25 yards within 2 minutes and 46 seconds. He streaked 26 yards in the final quarter to help set up the insurance field goal. In all he carried 14 times for 142 yards, a sterling show against a team with a rock-ribbed defense.

Called "the complete player," by Coach Duffy Daugherty, Saimes was all of that in unbeaten Michigan State's fourth victory. He is from Canton, Ohio.

Saimes had a fine array of contenders behind him in Matt Szykowsky of Iowa; Eddie Wilson of Arizona; Jim Parker of Clemson; Jerry Gross of Detroit; Sandy Stephens of Minnesota; Dick Drummond of George Washington; and Pat Trammell of Alabama, among others.

Hofstra Still Tops In Lambert Rating

NEW YORK (AP)—Hofstra, which edged Kings Point 8-7 last week, managed to hold first place in the Lambert Cup ratings today but Amherst was making large gains in the voting for the top small college football team in the East.

Hofstra (4-0) held onto first with a 9.3 rating while Amherst moved up to the runner-up spot 8.3 after an impressive 40-7 wallop of the Coast Guard Academy for its fourth win without a loss. Delaware, idle last week, dropped to third place.

Trailing the leaders are Albright, West Chester (Pa.), Lehigh, Trinity (Conn.), Kings Point, Bucknell and Tufts.

MSM RUNNERS GUNNING FOR M-D HONORS

Coach Jim Deegan's Mt. St. Mary's College runners, off to a 5-0 record, have their sights trained on a clean dual meet slate and a high spot in the Mason-Dixon championship meet on November 18 at Washington College, Chestertown, Md.

Deegan has his entire squad back from last season when the Mountaineers were 4-3 over the season and won the Loyola invitational meet. In addition he is getting help from four good freshmen and one Soph. Last season the Mountaineers lacked a strong number five man, but this year's tough pace has dropped John Muldoon, the 1960 number two man, into the fifth slot.

As Deegan sees things Soph Frank Murphy, Danbury, Conn., should be the pacesetter hotly pushed by Mike Landis, Short Hills, N. J., another Soph; John McKee, a Fresh from Manhasett, L. I., N. Y., and Bill Marzloff, a Wayne, N. J., Fresh. Hobbled by a bad ankle, Junior Andy Keeler, Chaminade, L. I., N. Y., led the pack against Gallaudet, and finished eighth against Loyola.

Others in contention are Junior George Knipping, Chaminade; John Dolan, Chaminade; Bob MacLachlan, Seton Hall, Patchogue, L. I., N. Y.; Soph Dick Hart, Southbury, Conn., and Freshmen John Clarke, Belle Harbor, L. I., and Jim McCartney, Coaldale, Pa., running cross-country for the first time.

Deegan expects the jockeying for position to continue all year with the top five runners all 20 seconds of one another. Key injuries could hamper the Mountaineers who last year lost three men in the championship duel via the injury route. Keeler suffered a broken ankle, MacLachlan twisted an ankle and dropped out and Capt. John Muldoon had a cramp which forced him to quit.

To date the Mountaineers have whipped Roanoke 20-30; Gallaudet 19-36; Loyola 26-30; Washington 15-46 and Towson 22-23. Ahead are Randolph-Macon, October 27, away; American, November 1, away; Catholic U., November 4, home; Loyola Invitation, November 11, and the championships on November 18.

Deegan's record over five seasons, not including this year's meets, stands at 25 wins, 16 and one tie.

TIGHTEN LAWS FOR COLLEGE CAGE PLAYERS

By ED CORRIGAN
Associated Press Sports Writer

NEW YORK (AP)—The National Collegiate Athletic Association still smarting under the basketball scandals of last March, aimed today to tighten the regulations on college players to the extent that they will be completely shielded from outside influences.

The powerful 18-man council of the NCAA—a body which rarely, if ever, is questioned by the organization, Tuesday adopted four amendments to NCAA rules which would tighten the holds on college players.

BAN OTHER LEAGUES

The four amendments will be presented with the council's backing at the annual NCAA convention in Chicago on Jan. 11-13. They are almost certain to be passed.

The amendments are:

1. The barring of all outside basketball competition, including the summer leagues.

"Originally," said Walter Byers, executive director of the NCAA, "the recommendation was to bar the players from summer competition. But the council heard a report from the gambling committee which recommended all outside competition, and decided to accept it."

OTHER CHANGES

2. A preregistration rule that bars an athlete from engaging in varsity competition until he has been in residence in a college two years if he decides to transfer after registering at an institution.

"We have been concerned with athletes transferring from junior colleges and starting varsity competition," said Byers.

3. Transfer rule that would require an athlete to be in residence in the school to which he transfers for one year before he can engage in varsity competition.

4. A recommendation that an athlete suspended from a college for disciplinary or academic reasons must complete two years of satisfactory work to be eligible for varsity competition in another school. The present rule is one year.

Others in contention are Junior George Knipping, Chaminade; John Dolan, Chaminade; Bob MacLachlan, Seton Hall, Patchogue, L. I., N. Y.; Soph Dick Hart, Southbury, Conn., and Freshmen John Clarke, Belle Harbor, L. I., and Jim McCartney, Coaldale, Pa., running cross-country for the first time.

BHS JAYVEES STOPPED BY DELONE 19-7

Biglerville High's junior varsity football team suffered its first setback after three victories when Delone came up with a pair of touchdowns in the last quarter to take a 19-7 decision at McSherrystown Tuesday afternoon.

Both teams scored in the first period. Biglerville opened the scoring when Fred Hartman went off tackle from the eight-yard line. George Montgomery added the point on an end run.

A 15-yard run by S. Little accounted for the Squires' tally. The kick for the point was blocked.

Late in the third period Delone recovered a Biglerville fumble just inside the Squires' 20 and from there launched a drive which was climaxed by a 65-yard touchdown pass from Sanders to Little. Again the kick for the point was blocked.

Another pass, this time a 20-yard scamper from Sanders to B. Clabaugh, gave Delone its final touchdown late in the last quarter. Sanders carried over for the point.

Don Stierner's Cannors will play at Littlestown next Monday while Delone, winner of its last three for a 3-2 record, hosts Scotland the same afternoon at McSherrystown.

SUGGEST SOFT HELMETS FOR GRID PLAYERS

PHILADELPHIA (AP)—Some football coaches have suggested that unscrupulous members of their profession and negligent officials possibly were preponderant factors in grid fatalities.

"Somebody's got to be teaching it to those kids," said Penn Coach John Stiegman, referring to a report by another coach that he observed blockers smashing their forearms into the chins and under the face guards of their opponents.

The other coach, Irv Wisniewski, an assistant at Delaware, had told the Philadelphia Football Writers Club Tuesday that he witnessed the activity last week in a game. He did not say which game.

CAN BE FATAL

"The pro scouts in the stands couldn't understand how they got away with it," said Wisniewski. "Not only is it against the rules but it can be fatal. When the face guard is hit from underneath the back of the helmet is tilted into hard contact with the vertebrae in the neck. The vertebrae could snap."

This brought Stiegman's remark. Swarthmore Coach Lew Elverson said: "We've seen it, too. But no one's called it."

Stiegman also referred to a story that said blows to the head and neck account for over 70 per cent of football fatalities. The article in last week's Philadelphia Bulletin laid the blame on helmets and shoulder pads "as hard as an anvil" and on face guards that are as easy to grasp as door handles.

"Perhaps a sporting goods firm could provide the Liberty Bowl teams this year with a softer shoulder pad and helmet material as a test," said Stiegman.

Wisniewski said Delaware tested 18 plastic helmets once but found the leather ones more to their liking.

"We've had very few head injuries with the leather," he said. "We use leather," added Elverson, "and I suppose Delaware and we are among the very few who do."

PLAYER STILL TOPS

DUNEDIN, Fla. (AP)—Except for minor variations, the winnings of golfing's top money-winning professionals remained unchanged last week.

Gary Player, with \$64,540, remained in first place through the Orange County Open, according to statistics of the Professional Golfers Association.

Arnold Palmer continued in second place with \$57,732. Doug Sanders was third with \$53,513.

Robinson Returns To Penn State

UNIVERSITY PARK, Pa. (AP)—Penn State end Dave Robinson, sidelined for the past five weeks with a dislocated shoulder-bone, is expected to return to the Nittany Lion lineup Nov. 4.

State Coach Rip Engle received the good news Tuesday while watching Robinson work out for the first time in pads.

However, team physician Alfred Griess said there was no chance Robinson will be ready for action this Saturday against California.

"He's only able to take part in dummy drills and hasn't had any contact work yet so he won't be able to play Saturday," Griess explained. "We hope to have him ready for the Nov. 4 game against Maryland."

The absence of Robinson, described by Engle as one of the best ends in the country, is considered one of the big reasons Penn State is only 3-2 for the season.

HARRIERS IN 1-POINT LOSS

The Gettysburg College cross-country squad lost its second straight one-point decision Tuesday afternoon when Dickinson took a 27-28 victory at Carlisle.

Ed Salmon, Gettysburg's ace performer, led the pack home in 24:27, seven seconds off the Dickinson course record.

The Bullets were severely handicapped by the absence of Jim Lombardi who is nursing a leg injury.

Gettysburg, now 5-3, will be idle until November 3 when American University will be met here.

Summaries:

WEST GIVING BAYLOR HELP

By THE ASSOCIATED PRESS

The St. Louis Hawks, who've made winning the Western Division of the National Basketball Association a habit, may have a tougher time of it this season now that young Jerry West has come of age.

West, the former West Virginia All-America with the all-round skills, hit the 30-point figure for the third straight game Tuesday night as he and incomparable Elgin Baylor fired the Los Angeles Lakers to a 124-122 victory over the Cincinnati Royals.

When the rookie-studded New York Knicks upset St. Louis 112-110 in the second game of the doubleheader at Madison Square Garden, the Lakers found themselves 1½ games up on the Hawks with the season hardly started.

SOME HOT SHOOTING

St. Louis has yet to win in two starts while the Lakers are 2-1 and showing no special weakness now that it is established that Baylor won't have to carry the heavy scoring alone.

West and Baylor combined for 61 points Tuesday night—with Baylor's two free throws with seven seconds left clinching the victory over Cincinnati.

Old hands Bob Pettit (27 points) and Clyde Lovellette (20) hit to their usual form for St. Louis, especially in the second half, but the young Knicks were able to overcome them with some hot shooting of their own. Richie Guerin had 29 points, Willie Naulls 22 and Johnny Green 20 for New York.

STEPHENS IS GOPHERS BITE IN BIG TEN

By JACK CLARY
Associated Press Sports Writer

If anyone mentioned Sandy Stephens' name a year ago, it was an effort trying to place him as the quarterback of the national champion Minnesota Gophers. They just weren't a team of backfield stars.

It's different this year. The Gophers are right in the middle of the fight for a second successive Big Ten title, and the 6-foot Stephens is the man at the helm. After a 6-0 opening loss to Missouri, Stephens has come back to take an active hand in every touchdown—eight in all—that the Gophers have scored in winning three consecutive games.

PLAY BOTH WAYS

Unlike most quarterbacks, the senior from Uniontown, Pa., is not an outstanding passer. He completed only 35.3 per cent a year ago, and until a torrid 7-0-12 against Illinois, missed 35 of 42 in the three preceding 1961 games.

Stephens may have to go it alone this week against Michigan. Jerry Pelletier, who has spelled him on defense, is out with a shoulder separation and Stephens may have to play both ways.

Princeton's Dick Coleman is worried about an aerial attack—his own. Noting his team completed only 2 of 13 passes for 14 yards in a 15-0 loss to Colgate last week, he remarked, "We've got to work on throwing under pressure" as he drilled for Cornell.

Penn won't have No. 1 tailback John Owens for its game against Rutgers this week and Mickey Brown will probably take his place. Oklahoma put Paul Lea into the first-string left halfback post and had ends John Porterfield and Dale Perini in scrimmage for the first time in nearly two weeks.

OTHER INJURIES

Maryland will still be without backs Dennis Condie and Bob Burton against South Carolina while the Citadel, atop the Southern Conference, may miss halfback Eddie Taylor for his non-league clash against Xavier.

Iowa State Coach Clay Stapleton moved fullback Dave Hoover to tailback on the alternate unit for Ozzie Clay, who is out for the year with a knee injury. At Penn State, Don Jonas, restricted by a dislocated collarbone, will be limited to nothing but extra points and field goals for four weeks.

Kansas may lose its two top tackles, Stan Kirshman and Dick Davis, and end Mike Dear, with various ailments, for this week's game against Oklahoma State while Northwestern's leading ground gainer, Bill Swingle, is not expected to play against Notre Dame because of a lame knee.

THE MOUNTAINEERS 4-3 overall, meet Randolph-Macon on the latter's field on Friday.

North, South Golf Event Begins Today

PINEHURST, N. C. (AP)—The North and South Senior Women's Golf Tournament, only four years old but boasting a field of 232, begins today at the Pinehurst Country Club.

All three former winners are entered. Maureen Orcutt of Englewood, N.J., is defending champion. Challengers include Mrs. Harrison F. Flippin of Ardmore, Pa., 1956 champion, and Mrs. Charles F. Bartholomew of Brookline, Mass., 1959 winner.

Mrs. Edwin H. Vane of Merion, Pa., who won the U.S. National Title six times and the North and South Amateur here a half dozen years, also is in the field.

LAFAYETTE TO BE BOLSTERED BY RETURNEES

EASTON — Lafayette College's football team, handicapped by injuries to key personnel in last Saturday's loss to Bucknell, should be nearly at full strength when it travels to Gettysburg this week to meet the Bullets.

Four of the five regulars who saw little or no action against the Bisons are expected back. Tackle Bob Leciston is the only starter still on the doubtful list.

Returning to action will be co-captains Pete Lehr and Walt Doleschal, fullback John Franco and tackle Jay Geiger. Lehr, a guard, saw no service last week because of a foot infection and Franco was sidelined with a hip injury.

BRIEF ACTION

Doleschal, who has had ankle trouble all season, was in for just two plays, a kickoff and a punt, against Bucknell. Geiger was in the college infirmary with an upset stomach the night before the game, but played briefly in the second half. Both men are now fit.

Leciston suffered a contusion of the hip two weeks ago and was not in uniform last Saturday. He will probably work out this week, but is not being counted on for Gettysburg.

Reserve fullback Rudy Guenther sprained a knee in Saturday's 13-0 loss and won't be ready for the game with the Bullets.

Both Lafayette and Gettysburg will be bidding for the second win of the season in their Middle Atlantic Conference clash. The Leopards are 1-3-1 overall and 1-2-1 in the MAC. The Bullets scored their first victory last Saturday over Muhlenberg and are 1-5.

MYHRA'S TOE IS "CLUTCH" FOR THE COLTS

By JACK HAND
Associated Press Sports Writer

If Cleveland's Lou Groza is "The Toe" then Baltimore's Steve Myhra must be "The Clutch." The Colts have won only three National Football League games this season and Myhra has won all three with field goals in the closing minutes.

Myhra, a 6-foot-1, 240-pounder from the Red River Valley of North Dakota, credits Bobby Boyd, the ball holder, with his sudden success.

"We work better as a unit than the other fellows who worked with me before," said Myhra today in Baltimore. "George Shaw, Ray Brown and Johnny Sample used to hold at various times. But Boyd makes the difference. The kicker gets the credit or blame when it usually is because of a difference of three or four inches in where the ball was placed."

HAS FINEST YEAR

Whatever the reason, Myhra at 27, is enjoying his finest year. He has kicked 8 of 13 field goals or 61 per cent of his attempts in only six games. Last year he made 9 of 19, his personal high. His career record is 31 of 65.

According to Myhra the toughest club on field goal kickers is the Chicago Bears, the team the Colts play Sunday at Baltimore. "They load seven or eight men on one side and come at you," he said.

Other NFL games Sunday will find the Green Bay Packers, now leaders of the Western Division, playing the Minnesota Vikings at Milwaukee. New York, colider in the Eastern half, will play Dallas at Yankee Stadium, and Philadelphia, which shares the lead with the Giants, plays winless Washington on the road. The San Francisco 49ers will try to reassemble their shotgun charges at Pittsburgh. Cleveland will play at St. Louis and Detroit at Los Angeles.

Littlestown MAYOR PUTS CURFEW ON TRICK, TREAT

Elmer G. Miller Sr., mayor of Littlestown, has requested that the children of the community not to ring doorbells for "trick or treat" after 9 p.m. during the Halloween season. He asks their consideration of elderly and ill people in town, and that they refrain from excessive noise where there is someone sick. Parents are reminded that they are responsible for any damage done or any acts of vandalism in which their children are involved.

The annual Halloween party for the children of the community, under Jaycee sponsorship, with the other four civic organizations of town assisting, will be held on Tuesday evening, Oct. 31, in the auditorium of the Maple Ave. school building. The annual solicitation of coins for UNICEF by pupils of the Fifth and Sixth Grades of the public and parochial schools will take place immediately prior to the party.

PLAN VFW DANCE
Mason and Dixon Memorial Post No. 6954, Veterans of Foreign Wars, met Tuesday evening at the post home W. King St. A dance for post members and guests will be held on Saturday, November 4, from 9 p.m. to 1 a.m. at Bank-ert's Restaurant and Recreation Center, N. Queen St. Music will be by Johnny Baker and his orchestra. Tickets are \$4 per couple.

The VFW and Legion will sponsor the annual Veterans' Day service on Sunday November 12, 7:30 p.m. in Redeemer's United Church of Christ. The post voted a donation of \$10 to the Adams County Chapter of the Pennsylvania Association for Retarded Children. The next meeting of the VFW will be held Tuesday, November 14, 8 p.m.

The hayride scheduled by Girl Scout Troop 777 for Saturday night has been postponed due to the local high school football game. A new date will be chosen.

The second October dinner meeting of the Littlestown Junior Chamber of Commerce will be held at 6:30 p.m. on Thursday in the Starlite Room, Dutterer's Restaurant.

NOTE ANNIVERSARY
The sixth anniversary of the Women's Guild of Redeemer's United Church of Christ was noted at the October meeting held on Monday evening in the church social hall. The French film "Thirty-five Rue de Marche," the story of a priest, Father Pire, and how he started refugee homes, was shown.

"Servants in the Service of Men" was the theme of the program, which was as follows: meditation, Mrs. John W. LeGore, program chairman for the month; group hymn, accompanied by Mrs. George A. Stonesifer, pianist for the evening; Scripture reading and prayer, Mrs. LeGore; vocal solo, "He," Mrs. Robert W. Hall; offering received by Mrs. Charles A. Hafe; film; Mizpah Creed in unison.

Plans for the annual Thank Offering service were discussed during the business session. Thank Offering, sponsored by the Guild, will be held on Sunday, November 12, 10:30 a.m. The guest speaker will be Mrs. Vassity, Lancaster, a native of Hungary. Mrs. Glenn Flinchbaugh is chairman of the committee in charge of arrangements and the program will be in charge of the executive board.

TO ATTEND MISSION
Mrs. Paul H. Stonesifer, president, presided and heard the reports of Miss Helen Jacobs, secretary, and Miss Malva Dutterer, treasurer. It was decided not to have a regular meeting during the month of December, and instead the Guild, in a body, will attend the community's annual preaching mission service on the first Monday in January. The session concluded with the Lord's Prayer repeated in unison and refreshments were served by Mrs. LeGore and her committee.

The Guild will meet again on Monday, Nov. 27, at the church. "The Mission of the Church in Service" will be the theme of the program. Mrs. Marvin F. Breighner is chairman of the committee in charge.

Mr. and Mrs. Ernest Gormley, Swampscott, Mass., have returned home after spending a week with Mrs. George L. Maitland, W. King St., and with other relatives in the vicinity. Mr. and Mrs. Gormley and Mrs. Maitland spent some time during the week in Williamsburg and Richmond, Va., and visited the latter's son-in-law and daughter, Mr. and Mrs. Walter Gemmill, and family, in Richmond.

SERVES ON DESTROYER
Burnell J. McIntyre, fireman apprentice, U.S. Navy, son of Mr. and Mrs. Dale McIntyre, 65 Main St., McSherrytown, is serving aboard the destroyer escort USS Hammerberg. The ship is returning from joint operations with the navies of Peru and Chile, followed by a five-day visit to Valparaiso.

3 BIGLERVILLE
HIGH SENIORS
ARE HONORED

Three Seniors at the Biglerville High School have been honored for their high performance on the National Merit Scholarship Qualifying Test that was given last spring.

The trio that won special commendation includes Philip Beidler, Roger Crum and John Shepard, according to an announcement by Charles L. Yost, the high school principal.

Each of these students is receiving a formal letter of commendation signed by the principal and the president of the National Merit Scholarship Corporation, John M. Stahlaker.

IN TOP 2 PCT.

President Stahlaker said:

"In recognition of their excellent performance on the National Merit Scholarship Qualifying test, nearly 25,000 students throughout the United States are being awarded letters of commendation."

"While these bright youngsters did not reach the status of semifinalists in the 1961-62 Merit Program, they are so capable that we wish to single them out for special attention. The semifinalists and commended students together constitute less than 2 per cent of all high school seniors, and this certainly signifies noteworthy achievement."

The National Merit Scholarship Corporation gives recognition to two groups of students who achieve high scores on the NMSQT. The semifinalist group is composed of the highest-scoring students in each state and in U.S. territories. Some 10,000 semi-

finalists will take a second examination in December to establish further their eligibility to receive Merit Scholarships.

PURSUIT OF EXCELLENCE
"The letters of commendation provide tangible recognition of the commended students' high ability," Mr. Stahlaker continued. "It is our earnest hope that the recipients will continue their education and thus benefit not only themselves but also the nation."

"The merit program has several objectives. One is the selection of merit scholars. However, we also strive to foster the pursuit of excellence among all students whose high performance indicates great promise. We urge the students honored today to make every effort to attend college, and to develop to the fullest their promise of achievement."

To increase their opportunities to obtain financial assistance if they need it, the Merit Corporation sends the names, home addresses, and test scores of all commended students to the two colleges they indicated as their preferred choices at the time they took the qualifying test.

BERMUDIAN HI
BAND PLAYS AT
SELINGSGROVE

The Bermudian Springs High School Band participated in the homecoming exercises at Susquehanna University on Saturday. Before the Susquehanna-Western Maryland game, the Bermudian Springs band played the Star Spangled Banner with the Selingsgrove Area High School and Susquehanna University Bands. The local band also gave a five-minute performance before the game. A tour of the college campus was made in the morning. Gary Crum is the band director.

Discussion at recent student council meeting centered around the possibilities of a student court and initiation of freshmen. Action was postponed until the next meeting.

Sophomore Warren Weaver has been chosen to represent the local FFA chapter at the National Safety Congress in Chicago as a result of the chapter's placing second in the state safety campaign during the last school year. The FFA Safety project last year was the tagging of hazards on local farms and returning later to see if they had been corrected.

REPORTS SOON

Principals Amos Meyers and Alfred Billett and Librarian John Korver attended the school and county administrators' meeting at the Gettysburg College cabin at Laurel Lake, recently.

The first six-week marking period ended October 18. Teachers are marking report cards for distribution on Friday.

Students in homerooms 223, 123, 210, 124 and 122 who made a sale during the recent magazine sale campaign were given an ice cream treat during their lunch period recently.

Junior Carol Shook and Sophomore James Eshleman, members of the advertising and subscription staff for the 1962 yearbook, conducted a survey recently to determine the approximate number of yearbook purchases planned by students and faculty. The safety patrol has made plans to meet each month. At the October meeting Principal Alfred Billett and Patrol Supervisor Carroll Slothoff told how a patrolman should act and explained his duties.

Approximately 150 persons attended the senior class skating party held recently at the Mary Jane skating rink. Clyde Kennedy, class advisor, was chaperon.

The Bermudian Springs Education Association's executive committee met recently in the high school library and laid plans for a general membership meeting November 29 from 4 to 5 p.m. in the high school cafeteria. John Korver and John Robert reported on the local leaders' workshop in the Columbia High School at which Herbert P. Lauterbach, assistant executive secretary of the Pennsylvania State Education Association, described the 1961 legislative session in Harrisburg. Supervising Principal Amos D. Meyers also attended the Columbia meeting.

The 11th Grade academic students and the 12th Grade students planning to go to college took the preliminary scholastic aptitude test on October 17. The purpose of the test is to give 11th Graders an opportunity to find out what to expect in a college board test. Senior scores are used in the granting of awards.

The School and College Ability Test and the Sequential Test of Educational Progress are being given this week, Monday through Thursday to all 12th Grade students. These tests are given in the areas of math, social studies, science, writing, listening and reading. The tests are state re-

to Rico, and Jerry Steelsmith of Glendale, Calif., with 65s. Al Bolding of Toronto and Billy Maxwell of Dallas had 66s.

Doug Sanders was 6-over-par for 16 holes when darkness stopped him. He will play off his first round this morning.

HOLDS SESSION

The officers of the Adams-Franklin County Basketball Conference were rotated at a meeting held in Greencastle Monday night.

The president and secretary will be members of the school staff at Fairfield but it was not indicated definitely who would serve in those capacities.

James R. Martz, Greencastle-Antrim principal, and Fred Kaley, athletic director, are the retiring president and secretary, respectively.

James Hoch, James Buchanan, was elected vice president. The treasurer, Selon Dockey, New Oxford, is serving in that post on a permanent basis.

ALL REPRESENTED

All 10 schools—six in Franklin County and four in Adams County—sent representatives to the meeting. Included were representatives of Greencastle-Antrim, James Buchanan, Scotland, St. Thomas, Fannett-Metal and Quincy. Adams County schools represented were Bermudian Springs, Fairfield, Littlestown and New Oxford.

The basketball league play will open this coming season on December 19 and close on February 23. The playoff between division champions will be held on a neutral floor in Franklin County on February 27.

The maximum charge for student admission to games was set at 35 cents. A maximum for adult tickets was discussed but not action taken.

Fairfield was authorized to secure bids on basketballs to be used by the league this season.

Scotland was asked to supply printed passes for coaches and school officials. The system whereby each coach was asked to rate officials following games was to be discontinued this year.

Each team will play 18 conference games during the season and there will be a playoff between champions of the two county divisions.

S-P BASEBALL MEETING

A meeting of the South Penn Baseball League will be held Thursday evening at 8 o'clock at the American Legion Home, Baltimore St.

TITAN SCORES
NINTH FLIGHT

CAPE CANAVERAL, Fla. (AP) —An intercontinental range Titan has scored its ninth successful test flight—and the launching may have been a critical test for the missile-detection capability of the new Midas IV spy satellite.

The Titan roared aloft on a 6,100-mile flight Tuesday night as Midas IV whipped over Cape Canaveral at an altitude of 2,100 miles.

The launching was timed to determine if infrared sensing devices in the satellite could pick up the exhaust trail of the Titan and relay the information to a ground station. Whether it did was not disclosed.

The Air Force announced the Titan met all test objectives in one of a final series of flights before the weapon becomes operational late this year.

Russia Hopes To Conquer Congo With Guns, Money

ADV WED PMS OCT 25

EDITOR'S NOTE—Down in the Congo, beset by chaos since it won independence, the Soviet Union sees a chance to establish an important bridgehead for communism in Africa. But all is not clear sailing for Moscow, as this dispatch, second of a series on the Congo today, discloses.

By LYNN HEINZERLING
LEOPOLDVILLE, the Congo (AP) — The Soviets have been given another chance in the Congo, but they may be bungling it again.

Patrice Lumumba, the powerful, hungry Congo leader of last year's independence disaster, gave them their first chance. He invited them to help him crush all resistance to his high-handed rule.

The Russians responded enthusiastically. They sent in 10 Ilyushin planes to ferry his troops around the country. They sent 100 trucks to move the ammunition, plus a horde of propagandists disguised as technicians.

Lumumba was delighted. Two of the trucks stood in front of his house for a day or two. A special Ilyushin stood available for his use for months. The Soviets pumped money into the country to create confusion and doubt, but they overdid it.

Col. Joseph Mobutu, then a 29-year-old army officer, climbed on a barroom table in a downtown hotel and announced he had given the Soviet, Czech and Polish embassies 48 hours to close down and evacuate their personnel. They went out in the Ilyushins, leaving the trucks behind.

Now, the Russians, Czechs and Poles are back at government in-

itation. They came here from Stanleyville, where they had been recognizing and supporting the rump government of Antoine Gizenga. Gizenga claimed to be Lumumba's heir. But in August he gave up this pretension and agreed to join the central government as second vice premier.

MONEY FLOODS AREA

The Soviets hadn't been in Leopoldville long when Congolese officials noted that huge sums of money were being distributed. The Soviets would like to see Gizenga, a moody, malleable man, or some other Lumumbist back in power.

The Communists have spent a great deal of money trying to create an image of Lumumba as the first Congolese martyr. They have named streets, libraries, universities and youth clubs after him.

Operating under his name, their potentialities for creating trouble are endless. To millions of black Africans, who understand the events in the Congo only dimly, Lumumba is a martyr and the greatest Congolese.

Even in the moderate Western-oriented countries of Africa, Lumumba is accepted as the father of the Congo Republic and an authentic martyr to the cause of black progress. This belief is carefully nurtured by left-wing organizations.

First order of business for the Communists in the Congo, therefore, must be to get Lumumba's National Congolese movement back in power.

With apprehension, veteran diplomats, old Belgian residents and United Nations officials watch the Cyrille Adoula government's ef-

Participants in the annual Adams County Apple Dessert contest held Monday evening in the Gettysburg High School home economics department were, left to right: Miss Stella Smith, Delone Catholic High School, McSherrystown; Miss Freda Arentz, Littlestown High School, who placed second; Miss Janet Millar, Lower Adams High School, winner; Miss Sandra Reed, Gettysburg High School, and Miss Judy Whited, Fairfield Joint High School. (Times photo)

orts to prevail and rule. While they think the moderate, Western-oriented Adoula is firmly in control, something bizarre always happens in the Congo to change the course of events.

Left-leaning Christophe Gbenye, interior minister, controls the policy. He is a powerful Lumumbist and many believe he would become prime minister if the Adoula government should topple.

REDS WANT RIOTS

Riots and trouble could bring about Adoula's fall. Riots and trouble appear to be what the Communist-supported Lumumbists are seeking.

Everything seems to point to a large Communist operation in Leopoldville. But the intense be-

hind the scenes trouble-making already observed could put a crimp in the plans.

None of the Communist diplomatic missions has been recognized by the Adoula government. Too much enthusiasm by the Soviets could cool off the government's earlier decision to accept the Red diplomats.

Two East German Communist diplomats, who came here from Stanleyville, were ordered to leave the Congo within 48 hours. Some of the Congolese who attended the Belgrade conference went on to Berlin afterward and had a look at the wall erected there by the East Germans.

REDS GET SETBACK

Russian, Czech and Polish rep-

resentatives were advised to return to their capitals and apply for accreditation through normal channels.

The normal channel of approach for accreditation would be through Foreign Minister Justin Bomboko, and Bomboko does not like Communists. Gen. Mobutu, who moved the Communist missions out of the country last year, has made no public statement about their return. His disapproval seems obvious.

Adoula also may want to inquire why the Communist governments are so eager to be accredited when they have contributed not one dollar to the United Nations effort to put the Congo on its feet.

SAYS GRANGE IS PROUD OF ITS RECORD

WASHINGTON, Pa. (AP)—The Pennsylvania State Grange should be proud of its successful legislative efforts, says the head of the organization.

J. Collins McSparran, master of the State Grange, made the comment Tuesday in an address at the formal opening session of the organization's 86th annual convention.

McSparran told some 2,000 delegates that the group should be especially proud of its role in defeating the "land commissar" bill, which would have made it possible for the state secretary of highways to seize any property deemed necessary for highways use, both current and future.

PRaises FREEMAN

"Passage of this bill," McSparran said, "would have destroyed one of the fundamental rights of an American citizen; the right to hold his property against seizure by the state until public need for

Once installed in the Congo, the Soviets and satellites would have a wide field of operations. No other country in Africa is so ideally located for Soviet purposes.

The Congo has borders with eight other African states or territories. These include such tense racial trouble spots as Angola and Northern Rhodesia. As yet the Soviets have no formal relations with any of these territories. A foothold in the Congo would provide a convenient backdoor to them.

TAMPA, Fla. (AP) — A young wife crashed her car into a utility pole Monday and caused the biggest electric power failure in the city since Hurricane Donna last year.

Cora Dupuy, 19, an expectant mother, was admitted to a hospital in good condition.

The crash snapped off the utility pole brought down heavy transmission wires and shorted out four utility sub-stations.

HOLLYWOOD, Fla. (AP) — A government official says automobiles may soon zip safely over electronic highways at speeds of more than 100 miles an hour.

William Ruder, assistant secretary of commerce, told the Outdoor Advertising Association of the property be given."

The Grange master also praised Secretary of Agriculture Orville Freeman, saying, "We have especially appreciated the job he has done in bringing the true picture of agriculture to the American people."

"People of America should recognize that abundant supplies of food are one of the great blessings we enjoy."

Data Processing Opens Job Range

CHICAGO (AP) — Girls, there's gold in electronic data processing.

A survey of business executives attending a seminar on computer applications revealed that two-thirds of them rate electronic data processing as a better than average career.

Several said certain female traits, such as precision, patience and attention to detail, make women especially good workers.

Three-fourths of them employ women at salaried technician's level, with salaries ranging from \$4,500 to \$10,000.

America Monday a test electronic highway may be built into the interstate system between two major cities as soon as feasibility studies are completed.

NEW YORK (AP)—Somewhere in New York there is a bold thief with two 38 caliber revolvers and two sets of handcuffs.

The equipment was stolen Monday from patrolmen's lockers at the East 35th Street station.

A Bit Of History About Early Settlers

By B. F. MacPHERSON

LT. WILHELMUS HOUGHTON
The genealogical and historical study of the "Lower" Dutch names, as copied by the Rev. wago is continued at this time.

Concluding the list of family names, as copied by the Rev. "Low Dutch" burial grounds a hundred years ago, more or less, those remaining are listed as follows:

"— Jacob - Bernard and John Smock, Christian Snedeker, Snyder, Speeder, Terhune, Isaac - Teemonth and Mark Tiltworth, John and Peter Van Dyke, Isaac Van Kleef, Vannuys, Vanderbilt, Van Orden, Van Nest, Abraham - Simon - Garret - Luke - John and Isaac Van Arsdale, Dennis Van Dine (Van Dyne), Peter Van Sant, Van Pelt, Cornelius Van Huys, Van Harlingen, Van Schihawk, Nicholas Van Horn, Van Riper, Van Voost, Henry Vandever, Thomas and Charles Van Tine, Ralph Cornelius, Aaron and Garret Voorhees (Van Voorhees), Wickoff, Jacob John and Abraham Westervelt, David - William and George and Frederick Williamson, and Benedict Yeury."

It would be genealogically (and historically) enlightening to compare the records of the Rev. Demorest with the gravestones that can be found at the present (1961) time in both of the Dutch Reformed Churchyards. It is reasonable to assume that just about every name recorded by Mr. Demorest would have at least one representative buried in one or the other of the "Low Dutch" graveyards — although it is absolutely certain that many graves were never marked in any manner and many others were designated by field stones without inscriptions. Only a few, comparatively speaking, were designated by headstones with legible inscriptions. As the Rev. Dr. Demorest so truthfully wrote "— there are many graves but few gravestones."

THREE MARKED GRAVES

In the "Lower" Dutch Reformed Churchyard, located near the southern end of the Low Dutch Settlement, near White Run, not too far from the Baltimore Pike, the following names are still to be found on tombstones — Young, Conover, Houghtelin, Brinkerhoff, Durbarow, and Brokaw. A century ago there must have been many others but time and vandals have had their day and the result is rather on the sad side — historically and genealogically speaking.

The first family to be considered in this series is quite an outstanding one and it can boast of three marked graves in this burial ground — although the last resting place of the Revolutionary ancestor is, at the present time, without a tombstone. It is quite possible that the grave of Lieutenant Wilhelmus Houghton (or Houghtelin) was well marked but the stone has long since disappeared and could probably be found in the foundation of a house or in use as part of a walk — the sad fate of many old grave markers.

In the files of the "Adams Centinel" later the "Star and

(Sentinel) the following genealogical date pertaining to the Houghtelin family is to be found under the dates given:—

1. Wednesday, May 3, 1815 — "Died, Wednesday, May 23, 1815, in the 89th year of his age, Mr. Hezekiah Houghtelin, of Mountpleasant Township, this County"

Note:—This Hezekiah Houghtelin, born 1726 — died 1815, was undoubtedly the pioneer ancestor of the Houghtelin family in what is now Adams County Pennsylvania — traveling from New Jersey to this locality in the first tide of Dutch-French Huguenot emigration before the War of the American Revolution. It is reasonable to assume that Hezekiah Houghtelin is buried in the "Lower" Dutch Reformed Churchyard in an unmarked grave.

2. Wednesday, February 14, 1816 — "Died, Saturday, February 10, 1816, Mr. David Houghtelin, son of Captain Hezekiah Houghtelin, of Mountpleasant Township, this County"

Note:—Probably grandson and namesake of the Hezekiah Houghtelin mentioned above — the pioneer ancestor of the family in what is now Adams County, Pennsylvania.

3. Wednesday, June 23, 1824 — "Died, Friday evening, June 18th, 1824, of a lingering illness, Mrs. Anne Houghtelin, wife of Mr. Wilhelmus Houghtelin, in the 68th year of her age."

Note:—The wife of Wilhelmus Houghtelin, soldier of the American Revolution, and probably a daughter-in-law of Hezekiah Houghtelin, pioneer, Anne Houghtelin is buried in the "Lower" Dutch Reformed Graveyard in a grave that is now unmarked — although according to a fairly reliable tradition this was not the case at one time.

4. Wednesday, November 23, 1825 — "Married, Thursday, November 17, 1825, by (name of minister not given), Mr. Wilhelmus Houghtelin to Mrs. — ? Larimer, both of Mountjoy Township, this County."

Note: — Wilhelmus Houghtelin did not long remain a grieving widower — for — according to the above record — a little over a year after the death of his first wife the old Revolutionary soldier "had taken unto himself another."

5. Wednesday, March 29, 1826 — "Died, March 13th, 1826, Mr. Abraham Houghtelin, of Mountjoy Township, this County, in the 70th year of his age — an old Soldier of the Revolution."

Note:—Very likely a brother of Lieutenant Wilhelmus Houghtelin and a son of Hezekiah Houghtelin, who came into what is now Adams County Pennsylvania, from New Jersey. There is every reason to believe that Abraham Houghtelin is buried in the "Lower" Dutch Reformed burial ground in an unmarked grave — along with others of his family.

6. Wednesday, June 13, 1830 — "Married, January 5, 1830, by the Rev Charles G. McLean, Mr. William Walker, of Franklin County, Pennsylvania, to Miss

MISS KELLER

Mr. and Mrs. Joseph C. Keller, R. 6, announce the engagement of their daughter, Emma Sarah, to Richard Owen Carey, son of Mr. and Mrs. Wharton Z. Carey, Gardners R. 2.

Miss Keller is a 1959 graduate of Delone Catholic High School, McSherrystown, and is employed by the Penn-Moc Shoe Company, Fairfield. Her fiancé is a 1958 graduate of Biglerville High School and is employed on the Mt. Tabor farm of the C. H. Muselman Company.

A spring wedding is being planned.

Gochenour—Laughman

Mrs. Christina Laughman, Hanover R. 5, announces the engagement of her daughter, Gloria Jean, to Gene Edwin Gochenour, son of Mrs. William J. Myers, Emmitsburg.

No date has been set for the wedding.

Shellenberger—Eby

The engagement of Miss Phyllis Lee Eby, daughter of Richard L. Eby, Littlestown, and the late Edna Wentz Eby, to Donald G. Shellenberger, son of Mrs. Katherine E. Shellenberger, York, and the late W. W. Shellenberger, was announced today.

Miss Eby was a 1959 graduate of Littlestown High School and a Senior at the York Hospital School of Nursing.

Shellenberger is a 1957 graduate of William Penn Senior High School and is employed by the York Tape Printers, Inc., York.

Cage Outlook At Lehigh Gloomy

BETHLEHEM — Eighteen varsity basketball candidates at Lehigh University have begun their second week of preseason workouts under the direction of head coach Tony Packer in preparation for the opening of their 19 game schedule on December 2 against the University of Delaware in Grace Hall.

In their 12th year under Packer's direction, the Engineers will play nine games at home and 10 on the road, including 14 contests with Middle Atlantic Conference rivals. The slate lists home-and-home series with Delaware, Gettysburg, Lafayette, Muhlenberg, and Rutgers, and single games with Bucknell, LaSalle, St. Joseph's and Temple.

Norm Brandt, senior forward from Roselle, N. J., heads a group of three returning lettermen who will form the nucleus of the squad. Brandt, a 6'1" jump-shot specialist, needs only 141 points to become the top scorer in Lehigh basketball history. The two other letterwinners are Bob Hupp, senior guard from Oceanside, N. Y., and Dave Usilton, junior guard from Collingswood, N. J.

A pronounced lack of height and balanced scoring makes it unlikely that the Engineers can surpass last season's total of five victories. The roster includes only three players as tall as 6'4", and the only returning regulars who averaged better than ten points per game were Brandt (18.7) and Hupp (10.9).

MIAMI, Fla. (AP) — Officers said Michael Karpan had equipped a gambling parlor with everything needed for a successful operation—except a back door.

Detective Sgt. Joe Gorman said a room behind Karpan's grocery had a mirror peephole in the door a warning buzzer connected to the front of the store and other furnishings worth about \$10,000.

But when a vice squad broke through the door the nine persons inside had no way out. Karpan, 39, was charged with operating a gambling game.

Mary Houghtelin, daughter of Hezekiah Houghtelin, of Mountpleasant Township, this County. The notes on the Houghtelin family will be continued next week.

Service Industries Eye Americans' Leisure Time; Many Problems Are Solved

Editor's note—Service is the fastest growing factor in the U.S. economy these days. Most new jobs fall in that class. In this, first in a series of three articles on how service industries help both the individual and the rest of the business world, Sam Dawson, AP business news analyst, tells why service takes more of your dollar all the time.

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—You know you're spending more for services these days. Your bills tell you so. But few know how big a part services play in their lives today nor how fast is the growth of the industries that cater to their needs, whims and convenience. Steadily increasing personal incomes and greater leisure time for most Americans offer the service industries a tempting target—and their aim grows surer every year.

When most people think of personal services, they think of beauty parlors, medical clinics and hospitals, commuter trains, gas, electricity, phones and the repair men that nurse a growing array of appliances.

ARTIFICIAL SNOW

But personal services go far beyond that, important as is the role of the above items in today's way of living.

There's someone to furnish artificial snow for ski runs when nature doesn't, and to keep city rinks iced when the temperature soars.

Others will take over all or part of entertainment problems, manage money, decorate or clean the home, teach almost any kind of game, help toward the social graces, rent a car or a washing machine, or insure against the chance your heart will give out before the payments on your installment debt do.

ENJOY NOW, PAY LATER

Banks and finance companies and credit card agencies will help get almost any product or service on the basis of enjoy now, pay

later. Those who sell various services — and there are more of them all the time — are pleased that this year Americans are spending about \$140 billion with them, or about 40 per cent of all consumer purchasing.

Boisterous personal appearance is a \$6 billion-a-year business. Beauty parlor chains span the nation now, and some of them sell stocks to the public.

Religion and welfare also are classed as services and the public spends \$4.7 billion on them. Americans kick in \$6.4 billion for recreation.

FOREIGN TRAVEL

Private education accounts for \$4.5 billion with an additional \$2.6 billion of consumer spending going for that broadening experience, foreign travel. Both of these services have expanded rapidly in recent years.

Service is as much a part of home life these days as togetherness. There are companies that will provide any type of servant from cleaning woman to butler. Renting of cars is well-established, and some predict that leasing of household equipment is the wave of the future.

Lending the money to finance purchase of the home in the first place rates as a service, no matter what you may call the monthly payment. Then there's a growing horde of decorators who will purchase anything you can pay for, another group that will landscape the grounds. And yard boys are in a service industry, whether your own sons or young businessmen with a string of clients.

OTHERS AVAILABLE

If you have any money left, there are specialists to serve you. Investing consultants, managers of trust funds, mutual fund salesmen, stock brokers.

And your newspaper is in there with services, too. Many carry advice on heart problems, how to put a husband in his place, or a mother-in-law, or a penny-pinching suitor.

Property Transfers

Charles W. Ogden and Sara Wilson Doll, executors in the estate of Frank H. Deatrick, Gettysburg, sold a property on Baltimore St. for \$19,600 to Attys. Charles W. Wolfe, New Oxford, and Donald G. Oyler, Gettysburg R. 2. They also sold a property at the rear of the fire engine house to the Gettysburg borough for \$4,900.

Earl E. Fetrow, executor in the estate of Aaron W. Fetrow, Tyrone Twp., sold a property in Huntingdon and Tyrone Twp. for \$19,900 to Mr. and Mrs. Elmo F. Hodge Sr., Harrisburg.

Earl and Leroy Gebhart, executors in the estate of Ralph Gebhart, Conewago Twp., sold a property in that township for \$5,500 to Mr. and Mrs. John A. Keagy, Conewago Twp.

Girl Scout News

Intermediate Girl Scout Troop 956 met Monday at St. James Lutheran Church. The girls were divided into patrols and elected leaders and assistant leaders as follows: Patrol I, Sunflowers, leader, Barbara Hockensmith; assistant leader, Deborah MacPhail; Shelly Appler, Patricia McNair and Hilda Ritchie; Patrol II, Lily Pads, leader, Lisa Wentz; assistant leader, Suzanne Logan; Becky Bergdale, Marilyn Forney, Becky Zentz and Lois Reaser; Patrol III, Twilights, leader, Susan Simpson; assistant leader, Virginia Danfelt; Linda Shindedecker, Nancy Rudisill and Deborah Kuhn. Investiture of Mrs. Samuel McNair as an adult Girl Scout was held.

And on another page you may find advice on purchasing or investing, either in general terms or in specific ways to spend your money or, hopefully, to double it. Service? If you aren't getting it, that's because you don't want it or can't pay for it.

Thursday: Business itself hires as many services as you do.

Robert Kennedy To Form New Club

WASHINGTON (AP) — Atty. Gen. Robert F. Kennedy, who recently resigned his membership in a Washington men's club which has racial restrictions, is going to help direct a new club.

"That's right" said a member of Kennedy's staff to a query about a story by Washington Star columnist Betty Beale stating Kennedy will be a director of the new Federal Club.

Miss Beale also said Kennedy's brother-in-law Stephen Smith will be a director of the club being organized by Charles Bartlett, reporter for the Chattanooga (Tenn.) Times.

Both Bartlett, a friend of President Kennedy, and Robert resigned from the Metropolitan Club recently. The attorney general said he could not support the club's traditional policy against Negroes as guests or members.

The new club, Miss Beale reported, will not be racially segregated.

HARRISBURG (AP)—The Pennsylvania Railroad may drop the part-time agent at its freight station in Wrightsville, York County, on 15 days' notice.

The Public Utility Commission said Monday there is insufficient business to justify continuance of the agent and less-than-carload shipments. There were no protests.

She is a member of the troop committee.

There will be no meeting Monday because of the Halloween party to be held that evening at the home of Mrs. Paul L. Reaser, 650 Sunset Ave., from 6:30 to 8:30 o'clock. All girls are to come in costume.

WILL TRY TO SCALE MT. FUJI

WASHINGTON (AP)—Of all the baggage being readied for a visit to Japan by five Cabinet members, that of Secretary of the Interior Stewart L. Udall will probably be the heaviest.

Udall and his four fellow Cabinet members will head a delegation that leaves next week for a meeting of the U.S.-Japan Joint Council on Trade and Finance. The others are Secretary of State Dean Rusk, Secretary of Labor Arthur J. Goldberg, Secretary of Commerce Luther H. Hodges, and Secretary of Agriculture Orville L. Freeman.

Secretary of the Treasury Douglas Dillon, originally scheduled to make the trip, has decided to send Undersecretary Henry Fowler in his place.

TO SCALE FUJI

They will meet with their Japanese counterparts Nov. 2-4 at Hakone, a resort at the base of Mt. Fuji.

On Nov. 5, Udall hopes to scale 13,000-foot Mt. Fuji, even though heavy snows usually cover the mountain by then. That explains the luggage.

The Japanese government sent a list of things the 41-year-old Arizonian will need.

It included heavy, cleated boots; ski pants; a special snow cap; goggles; a windbreaker; a heavy shirt, and climbing irons.

Udall says he will take everything except the climbing irons, which he is having made in Japan.

Advises On Apple Buying, Home Ventilation Systems And T-Shirts That Shrink

By MRS. HELEN D. TUNISON
Extension Home Economist

Now is an excellent time to buy apples. Apples fresh from the tree keep well without special care, and early fall prices are usually lower, since there are no storage costs. During October and November, it's usually to your advantage to buy apples by the bushel instead of by the pound. Often you may get twice as many apples for the same amount of money. Later in the season, when only storage apples are available, it will probably be better to buy in small quantities. Once apples are out of cold storage, warm temperatures will hasten their ripening.

Store apples in a cool, moist place. Firm apples may be kept at 60 or 70 degrees for up to two

weeks. Apples being stored for several months will keep best at temperatures between 32 to 40 degrees in moist atmosphere, about 80 per cent relative humidity.

PROPER VENTILATION

Proper ventilation becomes more important as improved insulation and new construction methods make houses more airtight.

Moisture, smoke and heat may be harmful to wall finishes and home furnishings. But adequately sized and properly installed ventilation devices can help to remove moisture, smoke and heat.

From now on homeowners and builders will find it easier to select ventilation equipment. Equipment manufacturers recently formed the Home Ventilation Institute to help establish a program for testing, labeling and certifying products. The institute sets minimum performance standards for ventilating fans and hoods, and make laboratory tests to see that equipment is meeting these minimum standards.

The Home Ventilating Institute drew up a classification scale that states the square-foot capacity of

HOLLYWOOD (AP) — Pablo Picasso is 80 today, and UCLA is wishing him happy birthday with one of the most comprehensive exhibits of the world's greatest living artist.

"Bonne fete, Monsieur Picasso" is the name of the exhibit, and the artist sent a reverse birthday gift in the form of a special painting.

The showing also features a purloined Picasso, recently reclaimed from an art thief, plus gems from the collections of the movie crowd.

I dropped by the University Art Gallery for a preview of the show and was escorted through it by the director, Frederick Wight. He reported that the idea for the exhibit came from Beverly Hills art dealer Frank Perls, a Picasso friend who felt some observance should be made of the artist's four-score years.

RECEIVE MANY PIECES

The UCLA Art Council agreed and started seeking Picassos from Southern California residents and museums. The works came in ample number—45 oils, 67 water colors and drawings, 63 prints and a scattering of ceramics. "The only thing we're missing is sculpture," said Wight.

The exhibit boasts a brand-new Picasso, arranged by friend Perls. The literal-minded might take it for a nursery-school scrawl, except for the inscription: "For U.C.L.A. — Picasso — Cannes 23.5.61."

"It's a scribble," Wight conceded, "but it's obviously the scribble of a genius. I would call it

each fan or hood in relation to various areas in a house. Now each piece of ventilating equipment must carry a label stating its classification code and performance.

T-SHIRTS SHRINK

All cotton T-shirts will shrink, but they should shrink evenly and not out of shape. A T-shirt of superior quality will shrink less than five per cent, a good one five to 10 per cent and poor ones may shrink up to 35 per cent.

Researchers at the Institute of Home Economics, United States Department of Agriculture, tell us why T-shirts may come out of the wash with a different shape. It is due chiefly to the fabric. Sometimes knit fabrics are stretched and pulled as they are manufactured, the tiny loops are pulled long and thin, when laundered these loops relax and return to their normal round plump shape making the T-shirt shorter and wider. Ruffled sleeve seams and stretched neck bands are typical of these inferior shirts too.

To avoid dissatisfaction, check the fabric construction, buy shirts in which the knit loops are round, plump and relaxed. These shirts will shrink but will shrink evenly and stay in shape. T-shirts shrink more if tumbled dry, so allow for this extra shrinkage and buy a larger size. Also, as you shop it's a good idea to check the T-shirt neckband, to be sure it will stretch enough to go over the wearer's head.

Remember a cotton T-shirt that shrinks out of shape and fit in the first week washing is certainly not a bargain regardless of what you paid for it.

A Lovelier You

By MARY SUE MILLER

WATCHING AND WEIGHING. Television is constantly weighed for its effect on our minds and emotions. But for now, we will leave decisions to the experts.

What we want to weigh here is TV's effect on your weight.

You'll have a clue to it after answering these questions: Does watching cut down on your exercise—a walk, workout, or just the normal amount of roaming about the house? Is watching an occasion for snacking?

If you answer "yes" to either or both questions, you had better switch some of your attention to your scales. Less than normal amounts of exercise and more than normal amounts of food can produce only one result — more weight and less shape.

To avoid those consequences, only two simple measures are required. The first concerns your viewing posture. Make it good. Sit with your weight centered on your hips, your torso drawn up to full height, and your back in a straight line. Proper posture is in itself an exercise, as it pulls the muscles taut.

Next "de-calorieze" your snacks. You should eliminate them altogether when you are a lone viewer. But with others grouped around, serving refreshments only seems sociable. Then it would be wise for all concerned—children, teens and adults—to provide no-cal beverages and low-cal crackers and fruits.

Those beauties on the TV screen have to be slim, and to make the grade they work at a diet and exercise regimen. You might keep that in mind, while you sit, eat and watch.

BEAUTY OF HOUSEWORK

Attention homemakers! If housework saps your energies, looks and nerves, send for my booklet, BEAUTY OF HOUSEWORK. It explains how to keep home and self sparkling with time to spare. Also included are an effort-saving work plan, shortcuts in house-keeping, and advice on how to give yourself a beauty treatment while engaged in your duties. For your copy, write me: A Lovelier You, Box 158, The Gettysburg Times, Dundee, Ill., enclosing 20 cents in coin and a LARGE, STAMPED, SELF-ADDRESSED ENVELOPE.

Some cooks like to thicken stewed tomatoes, or a tomato sauce, with cornstarch instead of flour.

An infinitely charming, engaging sketch. In a sense, it is a great man's signature and so serves its purpose. It isn't meant to be the Sermon on the Mount.

FINANCE SCHOLARSHIPS

Wight sees a figure waving his hands in the sketch. It looked to me more like a bouquet atop an axle spring.

Whatever it is, it is selling like all of the Spanish-born, left-leaning artist's work. A hundred capitalists have already bought up the supply of signed lithographs at \$200 per. Proceeds from the sale, as well as ticket sales, will finance art scholarships.

Among the loaners: Mrs. Gary Cooper, Vincent Price, Billy Wilder, William Goetz, Ernie Kovacs, Gregor Piatigorsky, George Cukor. Also David Bright, who contributed one of the Picassos stolen from him this year.

WANTS TO GO TO SWEDEN TO COLLECT PRIZE

By RICHARD KASISCHKE

JOHANNESBURG, South Africa (AP)—Albert John Luthuli said Tuesday he would apply to South Africa's government for permission to go to Sweden to collect the Nobel Peace Prize he won for his fight against the government's racial policy.

Interior Minister Jan De Klerk refused to say whether the 62-year-old Zulu ex-chief would be released.

"I will have to consider the whole matter," De Klerk said.

Luthuli said in a telephone interview he was proud to learn of the award, "not just because this honor has been done to me but also to my country and its people—especially those who have fought and suffered in the struggle to achieve the emancipation of all South Africans from the bonds of fear and injustice."

He said he had not decided what he would do with the prize money, which will amount to \$43,744.

Luthuli was belatedly awarded the 1960 prize for his work toward the easing of effects of racial discrimination in South Africa.

The 1961 peace prize was awarded to the late Dag Hammarskjöld, the Swedish U.N. secretary-general who was killed in a plane crash in Africa Sept. 18. The money will go to his estate.

There was no immediate official reaction to the Luthuli award from the white supremacist South African government. But the Cape Town newspaper Die Burger, which backs the ruling Nationalist

LEAVE \$1,600 A MONTH APT.

NEW YORK (AP)—C. S. Jha, Indian ambassador to the United Nations, and his wife have moved out of their \$1,600-a-month 10-room apartment—at least for the moment.

"For three years in that house," Madama Jha said Monday, "I have not known any peace."

"I'm being victimized," said the landlady, Betty Roberts, adding that she is writing to President Kennedy about it.

As gathered from the women, the clash reached a climax last week, when renovation work was being done for a new tenant on the upper floors of the five-story apartment building at 33 E. 74th St. The ambassador, his wife and their servants occupy the second, third and part of the fourth floor.

"They wouldn't cooperate. Madama Jha said she couldn't have any noise and refused to let anyone through the premises. It was necessary to go through there to do the work," Mrs. Roberts said.

Said Madama Jha: "I would have had to give a plumber my bedroom for a whole day. I would not even have been allowed to go to my own bathroom."

and girls of the nursery, beginners and primary department of the Sunday Church School of Trinity Lutheran Church and their parents will be held Friday at 7 p.m. in the Church School auditorium.

WESTERN IN ITALIAN FOR OPERA OPENER

NEW YORK (AP)—A gun-totin', poker-playin' Western sung in Italian—all those society folk making a big man out of a fellow who used to work for the CIO—what is the Metropolitan Opera coming to?

What the Met came to Monday night was one of the most exciting opening nights in its recent history—the opening night that nearly didn't happen at all.

The man who made it happen—Secretary of Labor Arthur Goldberg—was the big man of the night from the operagoers' parade at the start to the champagne hour in the exclusive Opera Club.

PAID TRIBUTE
To explain why Goldberg took over the opera one must backtrack to last summer, when the Met was cancelling its entire season because of a labor dispute, and Leontyne Price—who starred in Monday night's performance—was peaching: "Send us Godberg."

Goldberg showed up and ironed out the situation, and the opera went on. Some of the people who showed up at the Opera Club to pay tribute to Goldberg's talents were President Kennedy's mother-in-law, Mrs. Hugh Auchincloss; the President's sister, Mrs. Stephen Smith; Adlai E. Stevenson, Dr. Ralph Bunche and President Mongi Slim of the United Nations; CIA Director Allen W. Dulles, and former Ambassador to London Lewis Douglas.

BACK IN 1907
As for the gun-totin' and poker-playin', one must backtrack still further—to 1907, when Italian composer Giacomo Puccini was in New York to see some of his operas performed at the Metropolitan, and in between operas went to see David Belasco's "The Girl of the Golden West" on Broadway.

Puccini was enthralled and wrote it into an opera, "La Fanciulla del West," and if you've been watching television on Saturday nights, you've seen it all—except that you haven't heard it sung in Italian.

"LITTLE BOY," "LITTLE GIRL" LOOK PLEASES MANY BUYERS

By JEAN SPRAIN WILSON AP Fashion Writer

NEW YORK (AP)—Tailor the figure of the female in men's wear fabrics, or hide it altogether in yards of rippling ruffles and she looks all-woman in either case.

Bill Blass, designer for Maurice Rentner, went to both extremes with his "little boy" and "little girl" looks and won buyers' applause for each. He previewed them today during the spring market shows now in progress.

What is the "little boy look" made of?

High-waisted, wide-shouldered, lapped skirts and coats combined with sleeveless blouses or dresses, all made of men's wear serges and checks. That's what Blass' unboylike models wore under their straw bowler hats.

What is the "little girl look" made of?

Minutes later the previously crisply tailored mannequins were back again ruffled from chin to shin, stem to stern, horizontally or vertically and sometimes diagonally.

On some gowns where ruffles cascaded in columns from shoulder to hem the models fluttered like wheat fields in the wind. On other designs the bands of flounces gathered around the figure into cones of meringue-like froth.

One of the more restrained flounce numbers was a crepe dress with three tiers tucked and fluted to flutter and flare in the right places while dancing the Twist.

who visited Cram's shelter in a loft building at 2 E. 110th St. found a score of men sitting or lying on mattresses. Among them were several suspected addicts.

DONATES CLOTHING

Told to go along with the police, Cram first removed three armloads of clothing from a closet, tossed them on the floor and invited his charges to "help yourself."

A friend said that from his college days Cram has been deeply concerned with poverty and has devoted his time and money to relieving the poor.

Two hypodermic syringes and needles were found in a closet at the shelter.

Cram was charged with having permitted his premises to be used for the congregation of narcotics addicts and with possession of narcotics paraphernalia.

BENEFACTOR CAUGHT IN RAID

NEW YORK (AP)—A millionaire who used his fortune to help derelicts faced arraignment in felony court Tuesday on charges that he fed and housed six drug addicts in his Harlem shelter.

John S. Cram, 51, a former student at Princeton and Oxford universities and the descendant of a distinguished family that included a mayor of New York, was arrested in a raid on the shelter Monday.

He was taken into custody with six derelicts who were charged with possession of narcotics. Two narcotics squad detectives

East Berlin

EAST BERLIN — The East Berlin Charge of the United Church of Christ, consisting of the St. Paul's Church (Red Run), East Berlin R. D., and the Zwingli Church, East Berlin, was host in the second part of an exchange program between the East Berlin Charge and the Woodmont Union (titan), Woodmont, Connecticut, on Saturday and Sunday. Six members of the Woodmont Church were entertained at a fellowship dinner Saturday evening in East Berlin. Members of the East Berlin Charge provided overnight lodging for the guests. On Sunday the guests attended worship services in St. Paul's and Zwingli Churches and the church school sessions. After dinner at the homes of the East Berlin members the guests returned home.

The guests included the Rev. Robert Young, Mrs. Stella Horton, Mr. and Mrs. Paul Krieger, Mrs. Linda Cuthbertson, Mrs. Herbert Young and Miss Margot Dizan.

These guests were entertained by Rev. and Mrs. Anderman, Miss Anna Hull, Mr. and Mrs. Harold Cramer, Miss Norma Kauffman, Mrs. Claude Brown, Miss Mineva Mr. and Mrs. Charles Sipe Jr. The first portion of the exchange occurred on September 16 and 17 when some members of the East Berlin Charge were guests of the Woodmont Church.

ANOTHER RED CLAIM FILED

MOSCOW (AP)—Soviet Defense Minister Marshal Rodion Y. Malinovsky says the Soviet Union has "successfully solved the problem of destroying rockets in flight." Presumably he means his forces have an antimissile missile.

Malinovsky told the 22nd Communist party congress Monday that the U.S.S.R. "is capable of inflicting a crushing defeat upon the aggressor" with a new branch of its armed forces equipped with rockets and nuclear weapons. However, he did not spell out details of the Soviet breakthrough in defense against enemy missiles.

Malinovsky contended that rocket troops will play the decisive role in any future war. But he added: "We believe that the final victory over the aggressor can be achieved only through joint action of all armed forces."

In Washington, U.S. defense officials said Malinovsky's announcement could indicate a lead over the United States if he meant that the Soviet Union had developed a defense against ballistic missiles.

3 AMERICANS DEFY REDS AT BERLIN WALL

By GEORGE BOULTWOOD

BERLIN (AP)—East Berlin border guards backed down Monday night when three Americans defied a new Communist restriction on travel through the Berlin wall.

After a dispute Sunday between the border guards and the deputy chief of the U.S. occupation mission in Berlin, East Germany's Red regime announced all Allied personnel in civilian clothes would have to show identification papers to East German police when passing between the Soviet and Allied sectors of Berlin.

Monday night three Americans in civilian dress, identified only as members of the U.S. occupation mission, drove up to the

only crossing point still open to Allied personnel. HAVE TWO ARGUMENTS

The driver of the car said that when an East German policeman stopped him, "I told him I was not going to show him my papers. There was a brief argument and then I was allowed to pass."

The trio returned three hours later and again refused to show their papers. After another argument, they were allowed to pass into West Berlin.

The Western Allies, contending that all of Berlin is still technically under Western-Soviet occupation, have refused to accept East German controls. Western military personnel are ordered not to show identification papers to the East German police.

There was no immediate official U.S. comment on the new East German restriction.

The East Germans stopped a car carrying E. Allan Lightner Jr., deputy chief of the U.S. mission, when Lightner refused to show his papers Sunday night. He and his wife were allowed to
